Chairman's Statement

"We want all our retail and business customers to know that when they are making use of any BUA Cement product, we are providing all the products and services they need safely, efficiently, and ethically."

Welcome

Dear fellow stakeholders,

I am hoping and praying that you and your families have been safe during this Covid-19 pandemic outbreak. The unprecedented pandemic still leaves a lot of uncertainties on the global economy, but together we will prevail. Our top priority during these times remains the safety and wellbeing of our employees, customers, suppliers, partners, and our communities. As a Company responsible for our various stakeholders, we take our role and commitment very seriously and continue to support our communities with relief materials and advocacy for the practice of social distancing during this crisis.

This 2019 Annual Report is focused on our commitment to consolidate on our gains from the merger exercise (between the defunct Cement Company of Northern Nigeria Plc and Obu Cement Plc) that saw to the combination of BUA's Cement business in Nigeria which resulted in the Company (BUA Cement) becoming the third most capitalized Company on the Nigerian Stock Exchange.

We are particular about the system of rules, policies, and practices that determine how our Company's Board of Directors manages and oversees the operations of the Company. Post the conclusion of the merger in 2019, we are working with a leading consultant in the corporate governance field to support the board in the development of robust governance framework, built on tenets of transparency, accountability, and sustainability.

The Year in Review

The economy of Nigeria advanced by an average 2.26% year-on-year in 2019 compared to an average 1.90% growth in the previous year resulting from increased contribution from oil related activities. Nigeria's annual inflation averaged 11.39% in 2019, compared to an average inflation of 12.11% in 2018. Oil price was up 23.14% to \$66/bbl., impacted by trade disputes, sanctions, and geo-political tensions in the Middle East.

Chairman's Statement (Cont.)

2019 was a consolidation year for us given the completion of the merger between Cement Company of Northern Nigeria (CCNN) Plc and Obu Cement Company Plc. The merger resulted in a combined capacity of 8mmtpa. The year reflected our belief in the industry and our success in strengthening our position for future growth and long-term sustainability.

Following the successful merger, we commenced the process for listing BUA Cement Plc on the Nigerian Stock Exchange (NSE). BUA Cement Plc was listed on the NSE in January 2020 and emerged as the third-most capitalised company on the Exchange; with a market capitalisation of ₦1.2 trillion (\$3.3 billion). Subsequently, BUA Cement was included as a constituent of the MSCI frontier market index in February 2020.

Our Line 2 at the Sokoto plant in Sokoto State had its first full year of operation in 2019 while Line 2 at Obu Cement Plant in Edo State was commissioned in March 2019. Revenue grew by 47.5% to ₦175.5bn compared to 2018, with recorded volumes of 4.5 million tonnes. We recorded EBITDA margin of 47.0% and profit after tax of ₦60.6bn. This performance is attributable to benefits from the merger yielding revenue and cost synergies, supported by a sustainable business model, and a value-oriented strategy, which have translated to growing market acceptance reflective in our margins.

Due to this performance, the Board has recommended for your approval a dividend of ₦1.75 per 50k ordinary share. If approved at the Annual General Meeting on October 22, 2020 it will be payable to shareholders whose names are on the Company's register at the close of business on September 25, 2020. Shareholders are once again encouraged to embrace the e-dividend mandate and ensure that they fill the relevant form and submit to the Registrars for getting immediate value once dividend is paid. Mandate form for e-dividend is attached to this Annual Report for completion and return to the Registrars and could also be downloaded from the Company's or Registrar's website: www.buacement.com or www.africaprudential.com

The Company has complied with all the relevant Codes for best practices throughout the financial year ended December 31, 2019.

Board Changes

The Board approved my appointment as the Chairman of the Board, and Yusuf Haliru Binji, FNSE, was appointed as Managing Director/Chief Executive effective December 23, 2019. Yusuf Haliru Binji, FNSE, previously served as the Managing Director of Obu Cement before moving to Cement Company of Northern Nigeria Plc. Mr. Finn Arnoldsen, the Chief Operating Officer of BUA Cement and CEO of Obu Cement Plc was appointed prior to the merger effective April 9, 2019, and was reappointed as a Non-executive Director on the Board effective from December 23, 2019. Alhaji Shehu Abubakar and Senator Khairat Gwadabe were appointed as Independent Non-Executive Directors, effective December 23, 2019. This is in addition to the other 2 Non-executive Directors in person of Alhaji Kabiru Rabi and Mr. Chimaobi Madukwe. We welcome them all to the Board for their potential contributions and we wish them well in their respective roles.

Sustainability Initiatives

We continue to contend with environmental and social challenges that we face in our world. Such is the outbreak of the coronavirus that brought the world to a standstill thereby affecting the way businesses are conducted globally and the way of life of people in general. Other challenges include youth unemployment, environmental degradation, socioeconomic inequalities, climate change and global warming.

As a fast-growing organisation and responsible brand, we play a unique role in addressing a number of these challenges and remain committed to achieving tangible results. Consequently, our sustainability initiatives reflect our determination to deliver on already identified sustainable goals including climate energy & environment, community, and circular economy. Sustainability is a strategic priority at BUA Cement, and we will continue to work with relevant stakeholders to engender changes.

Chairman's Statement (Cont.)

We develop sustainable partnerships capable of fostering our commitment to align our Environmental, Social and Governance (ESG) efforts with the UN Global Compact and Sustainable Development Goals (SDGs). This, we believe can help us increase our leadership and contribution to the SDGs, thereby meaningfully improving the overall standard of living for our people.

Outlook

I would like to thank our entire staff for their unwavering support towards attaining the vision of our Board and management team. The outlook for BUA Cement is more promising because of their contributions. Our Board strives for excellence and continues to demonstrate planned approaches for the progress of the company. With the planned commissioning in the first half of 2021 of the Sokoto Line-3, which will add 3mmtpa to the current 8mmtpa, we will solidify BUA Cement's position as a leading producer of cement in Nigeria and West Africa. We will continue to mine the benefits of the recently completed merger, which holds significant operational and financial benefits to further drive cost and revenue synergies.

We have made in-roads into new markets within Nigeria and in neighboring countries and will build on gains recorded from current footholds in these new markets whilst consolidating on existing ones. The export of our products is expected to increase in 2020 pending border regulations of the federal government. This will attract foreign currency, support the optimisation of the output of our plants, and create even more jobs in the medium term.

The outbreak of the coronavirus still poses uncertainties in business activities as Nigeria continues to respond in a way that can curb the spread of the virus. The initial lockdown in March 2020 that crippled supply chains due to restrictive movement of people and goods have eased, but we continue to monitor the potential and existing disruption caused by the pandemic.

We want all our retail and business customers to know that when they are making use of any BUA Cement

product, we are providing all the products and services they need safely, efficiently, and ethically. By constantly demonstrating the undisputable integrity of our businesses, people, and partnerships, we can earn and keep their trust over the long term.

Closing Remarks

Over the past years, I have had the opportunity to interact with BUA employees, and at award events celebrating the extraordinary ingenuity and high quality of their work. BUA Cement is in excellent hands. I thank all our stakeholders for their support and hope that you all enjoy reading our 2019 Annual Report.

I would like to thank our esteemed shareholders, distributors, suppliers, host communities and pray that we are alive to witness next years' Annual Report.

Yours Faithfully,

Abdul Samad Rabi, CON
Chairman of the Board
BUA Cement Plc, 29 July 2020

Operating Environment/ Operations

Q: Can you provide an assessment of the industry so far? How well positioned are you, given the challenging economic environment and competitive positioning?

The cement industry in Nigeria has done relatively well compared to other sectors. It has been witnessing consistent growth over the past 2 decades with significant amounts being invested in the sector. Currently, the sector is dominated by three major players, two of whom are indigenous conglomerates (BUA Cement being one). Given the rising population growth rate, growing at an average rate of 2.5% per year; the high urbanization rate; along with the level of infrastructural development in the country, the cement industry will continue to remain one of the biggest growth sectors of the economy.

On the question, 'how well-positioned are we?' we are very well positioned, with our focus on: the quality of our product offering, which continues to gain wide market acceptance; the strength and innovativeness of our people, led by an experienced management team and our continued investment in best-in-class production facilities alongside processes. I believe these critical enablers not only aid our continued growth but ensure we remain a resilient institution, even in periods, where we witness shocks or changes to the economy or the operating environment.

Q: How does BUA Cement handle logistics for its products to ensure that they are widely distributed across the country?

Cement is transported solely in trailers and we have adopted two approaches to achieve this. We have the door-to-door Company delivery service, where the customer pays a certain rate, and we deliver to any part of Nigeria. For this option, we have a fleet of trucks dedicated to product deliveries. For customers who prefer to handle their own logistics, we have the self-collection option; we provide an ex-factory price (net of the transportation costs) and schedule customers to pick up their products from the plant, using their trucks.

Interview with the Managing Director (Cont.)

"Sustainability is a focal point of our operations as we ensure our activities record minimal impact to the environment whilst impacting the lives of individuals, particularly in the host communities, where we operate. "

Q: What has been the impact of the border closure instituted by the Federal Government of Nigeria on your export business? How do you intend to mitigate associated risks going forward since the border closure is still enforced?

In general, the Nigerian market remains robust even when cement consumption should be impacted by economic frailties and negative shocks. We attributed this to the low cement consumption per capita in Nigeria, which ensures low oil prices (among other challenges), do not have the expected magnitude of impact in the short term but more in the medium to long term. Additionally, the resilience of the Nigerian market is further supported by the demand dynamics between public and private consumption. Historically, public sector consumption accounted for more than 70% of the total market consumption. This has shifted in favor of private sector consumption which now accounts for more than 60% of total consumption.

The border closure, which took effect from August 2019, led to other opportunities, as we expanded our market coverage to absorb the loss in volumes and compensate for the loss in export opportunities. We opened new markets in the North East and the North Central regions of the country, serving them from our Sokoto plant, with reduced turnaround time and increased efficiency of our trucking operation.

Q: Can you provide an update on the court injunction between BUA Group Plc and Dangote Cement on the Obu Quarry? What is the potential risk for BUA Cement?

The Obu quarry is located in Okpella, Edo State and is one of several, owned by the Company. The issue

is before a court of competent jurisdiction and we await the outcome of the legal process. Having said that, we have sufficient limestone reserves to sustain our operations regardless of the outcome of the court process.

Financial Performance

Q: How profitable were the operations of BUA Cement and what were the drivers?

We recorded a revenue growth of 47.5% YoY to ₦175.5 billion in FY 2019 (FY 2018: ₦119.0 billion), driven by volume growth (+53.1%,YoY). Growth in volume was due to increased capacity and an expanding customer base, given an increasing appreciation of our product offering.

In the second quarter of 2019, overall production capacity increased by 60.0% to 8mmtpa (FY 2018: 5MMTPA), having commissioned the 3mmtpa Line-2 at the Obu Plant. Given the added capacity, cement volume grew by 53.1% at the end of 2019, with overall capacity utilisation above 60%: well above the global average.

EBITDA rose by 47.2% to ₦81.9 billion in FY 2019 (FY 2018: ₦55.7 billion), with EBITDA resilient even at 47.0% (FY 2018: 47.0%). Profit Before Tax increased by 68.9% to ₦66.2 billion in FY 2019 (FY 2018: ₦39.2 billion), driven by continued improved operational performance. This led to Profit Before Tax Margin of 37.7% (FY 2018: 33.0%), an improvement of 480 basis points. Profit After Tax declined by 5.4% to ₦60.6 billion in FY 2019 (FY 2018: ₦64.1 billion), due to tax credit received in 2018 from the grant of pioneer status on Obu Line-1. However, we have received pioneer status approval on our Obu Line-1 and

Interview with the Managing Director (Cont.)

Sokoto Line-2 for the next 2 and 3 years, respectively.

Q: The cost of your raw materials (per ton) keeps rising. Is this just production-price related? What should we expect in terms of the cost behavior relative to a potential devaluation of the Naira?

The rising cost of raw materials can be attributed to increased operational activity, despite instances where it was price induced. The bulk of raw materials used for our cement operations are locally sourced; limestone represents over 85% of the factor input while 'other materials' such as gypsum and corrective ingredients represents 5% and 10% respectively. Given this background, the impact of naira devaluation is limited to importation of spare parts and few raw materials such as foreign coal and gas, though priced in dollars is settled in Naira. During the year, we imported fuel oil and AGO due to their non-availability from the local refineries; thus, impacting our cost profile. In general, we believe our continued focus on efficiency through innovation and cost containment, led by our value offering would preserve margins.

Q: BUA Cement has ₦20.9bn in short term borrowings, up 461.2% from the previous year and representing 19.5% of total debt. Can you provide some context for the purpose of the short-term borrowings? How is the Company handling its debt obligations in a low interest rate environment?

The short-term borrowings were used for working capital augmentation, importation of spare parts and raw materials and the outstanding balance of loan used to part finance the cement plant construction. Our short-term borrowings are currently being restructured to long tenured facilities, with maturities between 3 to 7 years; thereby resulting to lower funding costs. We expect to conclude the process of restructuring our borrowings by Q2 2020.

It is noteworthy that in 2019, our balance sheet was strengthened, with a reduction in debt to equity ratio to 0.29x from 0.58x in 2018; due to an increased shareholders' fund balance.

Governance

Q: What is the Company's approach to its Environmental, Social and Governance efforts?

Sustainability plays a focal point in our operations, as we ensure our activities record minimal impact on the environment while positively influencing the lives of individuals, particularly in the host communities, where we operate.

Towards this effort, we are guided by the United Nation's Sustainable Development Goals (UNSDG) and the Cement Sustainability Initiative (CSI), among others. As part of efforts to achieving these goals, we reported a dust particulate emission from stack of less than 10mg/Nm³ (well below international standards); reduced our use of fresh water through our recycling processes and backfilled some of the previously excavated sites, thereby restoring the environment.

In terms of community development, we awarded start-up grants, engaged in capacity building, provided access to clean water, healthcare, and education. Furthermore, we provided power to host communities and most importantly, awarded scholarships.

Already, we have identified new initiatives and working to further strengthen existing sustainable activities.

Strategy

Q: Can you share some details about the merger between CCNN and OBU Cement completed in 2019 and why it was a strategic move for the Company?

The merger between CCNN and OBU Cement creates additional value for the shareholders, resulting from an increased production capacity of 8mmt/a across two plants. Through this, we are well-positioned to derive cost and revenue synergies, led by the renewed ability to push into new markets. The resulting entity (BUA Cement) was listed on the Nigeria Stock Exchange (NSE) in January 2020 with an initial market capitalization of ₦1.2 trillion naira: making it the third most-capitalised Company on the Exchange, a position it still maintains till date.

In general, the merger has strengthened our market leadership positions in key regional markets across the North-West, South-South and South-East Nigeria, due to our strategic positioning and

Interview with the Managing Director (Cont.)

proximity to these markets. We will continue to build on current merger gains, as we to expand our reach in Nigeria and other West African markets.

Q: Does the Company intend to increase its capacity utilisation while expanding its plant capacities across the country? What effect will this have on revenue?

Despite achieving a capacity utilization rate of above 60% using best in class production plants, we are very much poised to increasing our capacity utilization rate through further market penetration, and changes to our energy mix, for the Sokoto operations.

Due to difficulty with the procurement of Low Pour Fuel Oil (LPFO), we encountered some operational challenges, which impacted our Line-1 at Sokoto while the border closure added further constraints at the onset. Nevertheless, both issues were effectively dealt with and we should see improvements in 2020.

Given the low consumption base in Nigeria, our current expansion plans would reinforce existing efforts to resolving the energy challenges at our Sokoto operations along with the continued push to new and existing markets.

In general, cement prices remain moderately priced compared to higher pricing across Sub-Saharan Africa; therefore we believe existing and future pricing will be supportive of our efforts.

Q: Considering the energy mix for your plants in Sokoto and Edo States, what are the plans to improve energy efficiency across these plants?

We are currently reviewing alternatives to further diversify our energy mix by exploring the viability of different energy sources at our Sokoto plant; given consideration to the continued scarcity of LPFO, which was previously readily available. Towards this improvement, we are in discussion with a reputable local energy firm for the supply of Liquefied Natural Gas (LNG), while taking stock of the changes we would have to make since there are no gas pipelines running up to the North-West. This should be concluded in early 2020.

We do not expect changes to our energy mix at our Obu plant, as we expect to maintain the use of pipeline gas in our operations, given its relatively low cost and availability.

Outlook

Q: What is the market share for BUA Cement and is the Company making efforts to expand into new markets?

We are strategically positioned across the North and South of Nigeria, with the complimentary nature of our operations affording us national coverage and competitiveness. Despite growing market share to 20% in 2019 (2018:13%), we would be making further efforts aimed at growing our market share. This would be achieved through strengthening our distribution strategy and ensuring the timely completion of our Sokoto Line-3 plant.

In terms of strengthening the distribution strategy, efforts would be made to increase our engagement with our dealers, distributors and users, particularly the block makers: through training programs aimed at educating them on how to get the most value from the cement. This is in addition to capacity building programs, among others.

On the completion of the Sokoto Line-3, we have achieved remarkable milestones on the project and remain on track to completing the project during the first half of 2021.

Through these concerted efforts, we should witness growth in market share in 2020, particularly with a resilient private sector and the government's effort aimed at infrastructure development and modernization.

Yusuf Haliru Binji, FNSE
Managing Director
BUA Cement Plc, 29 July 2020

Sustainability

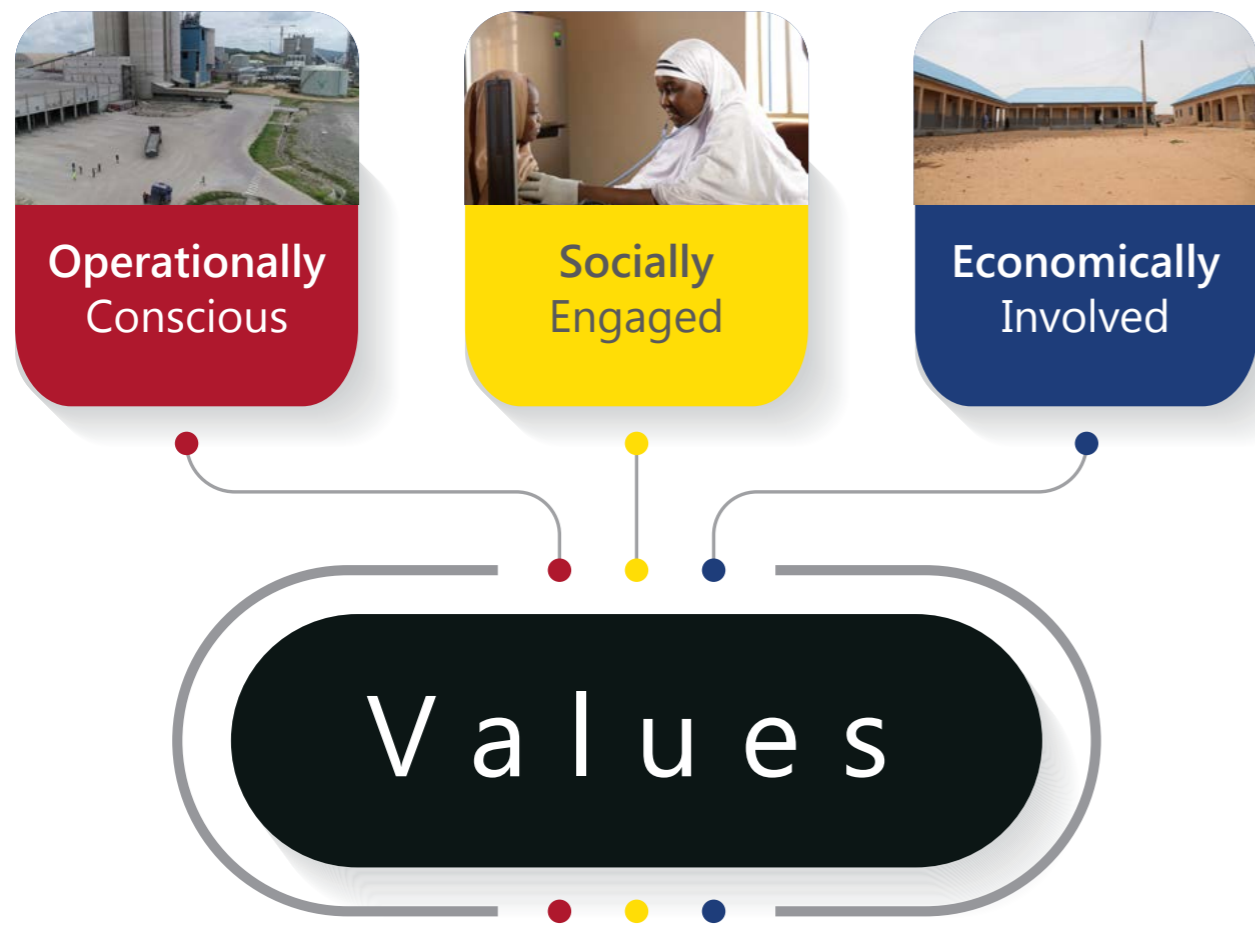

Approach to Sustainability

At BUA Cement, we find our purpose in creating invaluable offerings that not only solve challenges in housing and infrastructure but also go a long way to support economic empowerment and national development.

Since our establishment, we have remained committed to national and economic development in Nigeria and indeed Africa, through our operational activities and social initiatives. Through these, we ensure that we continue to lead the discussion about Africa's potential in the world.

Our keenness to see a prospering Africa further obligates us to prioritize quality and innovation, ensuring our product offerings maintain the expected level of value, while tailoring our service to the uniqueness of our diverse customer portfolio.

Performance – Operational, Social and Environmental

In recent years, the continent, with Nigeria at the centre, has witnessed record high urbanization rates, though unmatched with continued housing and infrastructure deficits; arising from low commodity prices, revenue shortfalls and by extension, low GDP per capita. Given this mismatch

and challenges, we constantly ask ourselves, how best can we drive value and impact in societies?

To answer this important question, we have adopted an inside-out, 3-pronged approach, which consist:

Operationally Conscious – What we do and how we do it, are important considerations to us. Towards this, we offer cement qualities that offer more for less and added strength. In addition, conforming to required local and international standards, we ensure that our activities have minimal impact on the environment through strict adherence to emission standards; reduced fresh water use, through water recycling and land reclamation among others. All guided by our corporate governance framework.

What did we do?
Specifically, our plant designs ensure the adoption of close circuit systems for heat recovery. With this system, we are able to recover heat generated during the kiln clinkerisation process for further use during calcination at the calciner, resulting to a reduction in direct thermal emission (the burning of fossil fuel to heat the kiln), which accounts for ~40% of total emissions among cement manufacturers globally and also reduce heat emitted into the atmosphere. Equally, as we continue to seek out ways of reducing our greenhouse footprint on the environment, our choice of gas as a primary energy source, has resulted to less carbon emission. In addition, our dust particulate emission during the period remains below the international benchmark at 10mg/Nm3.

Socially Engaged – We understand that our success depends on the success of others. As a result, being socially engaged through volunteering and community enriching initiatives ensures we not only empower individuals and communities through diverse program, trainings and projects but also ensures we have pathway to consistently pursue our mission of promoting economic development across Nigeria and Africa.

What did we do?
In the course of the year, we provided our neighbouring communities with six (6) portable water boreholes, meeting 70% of the water needs of the communities, along with six (6) transformers, as part of our promise to ensuring host communities are provided with power, both in line with the UN's Sustainable Development Goals. In addition, we fully renovated and furnished three (3) schools, while stepping up securities measures, by providing two (2) security patrol vans to the communities. We have made provision for 100 educational scholarship grants to meriting students in tertiary institutions.

Economically Involved – By successfully executing on our initiatives, we are able to drive economic development through their multiplier effects. Hence, equality and shared prosperity for all.

What did we do?
Towards achieving our identified goals, we employed and trained graduate trainees from host communities, in the field of engineering; this is in addition to ensuring 60% of recruitment slots for both skilled and unskilled labour are opened to members of host communities.

Sustainable Developmental Goals

We are committed to the United Nation's Sustainable Development Goals (SDG's). In fulfillment of this commitment, we highlight the activities embarked upon in 2019, particularly how it reinforces each of the goals.

SDGs	Target	Activities
No Poverty	End poverty in all its forms everywhere	We provided employment opportunities to host community members; trainings through capacity building programs and grants
Zero Hunger	End hunger, achieve food security, improve nutrition and promote sustainable agriculture	In partnership with our associate companies, we provided food items to displaced members of societies, such as in North-East, Nigeria
Good Health and Well-Being	Ensure health and well-being for all	We provided and equipped hospitals and health centers situate in host communities; thereby promoting wellness of members within the communities
Quality Education	Encourage quality education and lifelong learning	We are responsible for the full financing of a school in Sokoto State. Scholarships have also been earmarked to meriting students in tertiary institutions in all the States our plants are located (Edo & Sokoto)
Inequalities	Ensure gender equality and empower all woman and girls	We continued to give priority to women in our recruitment process. In addition, we maintained the pathway which provides leadership opportunities to women
	Reduce inequalities between and among countries	We partnered with the BUA Foundation to provide relief materials to indigent people
Clean Water and Sanitization	Ensure availability and sustainable management of water and sanitization	We provided portable pipe borne water to host communities
Affordable and Clean Energy	Ensure access to reliable, sustainable and modern energy	We provided power to host communities. By so doing, we improved their well-being and drove economic empowerment
Decent Work and Economic Growth	Promote sustained, inclusive and sustainable growth	We ensured inclusive growth by paying competitive wages to our staff alongside other benefits such as 13th month salary, leave allowances, Pensions, HMO etc.
		We provided grants to members in host communities as part of capacity building initiatives

Sustainable Developmental Goals (Cont.)

SDGs	Target	Activities
Industry, Innovation and Infrastructure	Build resilient infrastructure, promote inclusive and sustainable industrialization and faster innovation	We continued to invest in our business, which allowed us strengthen our value offering, operate efficiently and cater to the growing cement consumption.
Sustainable Cities and Communities	Make communities safe, resilient and sustainable	We constructed and maintained roads in host communities where we operate from. As part of the maintenance activity, we repaired/filled all potholes to reduce the risks associated with road usage
Climate Action	Take of action to combat climate change and its impact	The choice of gas as a primary energy source enabled us to reduce our emission footprint by ~40%
Life below Water	Conserve and sustainably use the oceans, seas and marine resources for sustainable development	We ensured our mining operations do not use up excessively freshwater or contaminate water sources through recycling and efficient disposal
Life on land	Protect, restore and promote sustainable use of terrestrial ecosystem	We have set in place modalities to restore former quarries to habitable dwelling places.
Peace, Justice and Strong Institutions	Promote peaceful and inclusive societies foe sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	We are an organisation that seeks peaceful co-existence in host communities
		Our corporate governance framework is set out to achieve accountability and attain best practices

Conclusion

As we journey through an ever-changing world, we understand that the standards acceptable today will become inadequate tomorrow. With this mindset, we remain committed to reducing the negative of our activities on the environment while increasing our positive influences on the society, by constantly searching out better alternatives, initiatives and avenues to make the most meaningful of impacts.

Corporate Governance

The background image is a blurred office environment. In the foreground, there is a desk with a pair of glasses and some papers. A chair is visible behind the desk. In the background, a person is standing, partially obscured by the blur. The entire scene is overlaid with a semi-transparent yellow gradient.

Introduction

The Company recognises and believes in the importance of commitment to the highest standards of corporate governance, hence, its compliance with the Code of Corporate Governance for public companies in Nigeria. The Company also strives to observe the highest standards of transparency and accountability in its dealings with all stakeholders in order to ensure the sustenance and profitable management that will result in delivering value to its shareholders. The Board is responsible and accountable for the Company's activities including management, risk, strategy and financial performance.

Two independent non-executive Directors were appointed on the Board in compliance with the Code of Corporate Governance in order to strengthen the Board in the discharge of its duties.

Board of Directors

ABDUL SAMAD RABIU, CON
Chairman Board of Directors

Billionaire industrialist and philanthropist, Abdul Samad Rabiou, a Nigerian, is the Executive Chairman/CEO of BUA Group – a company he founded in 1988 and has become one of Nigeria's largest privately owned foods and infrastructure conglomerate with diversified investments spanning key business sectors of the Nigerian economy.

Under Abdul Samad's astute leadership, BUA has grown steadily over the years to entrench itself as a leading player with holdings in cement, sugar, rice, flour milling and pasta (though both recently divested in January 2016), edible oils, logistics, agriculture, fertilizer production, steel and real estate. With a firmly established reputation for innovation, BUA Group is one of the largest contributors to Nigeria's GDP and among its largest employers of labour.

YUSUF HALIRU BINJI, FNSE

Grants to Sokoto Cement Schools	31,300,000
Total	89,769,250

9. Acquisition of Own Shares

The Company did not purchase any of its own shares during the year.

10. Employment and Employees

i. Employee health, safety and welfare

The Company maintains business premises designed with a view to guaranteeing the safety and healthy living conditions of its employees. Employees are adequately insured against occupational hazards. All safety standards are met by the Company and these include provision of firefighting equipment, adequate protective clothing and footwear.

The Company also pays reasonable termination and gratuity benefits to all members of staff who are entitled to them in accordance with the condition of service.

ii. Employment of disabled persons

It is the policy of the Company that there is no discrimination in consideration of applications for employment including those from disabled persons. All employees whether or not disabled are given equal opportunities to develop their experience and knowledge and to qualify for promotion in furtherance of their careers. There are currently three physically challenged persons in the Company's employment.

iii. Employees involvement and trainings

Whether people join the Company as operational staff, graduates or experienced professionals, they receive support and training that will bring out the best in them. The Company is proud of its records for nurturing talent and encouraging people to fulfil their potential. The Company places a

Directors' Report (Cont.)

high premium on the training development of its manpower and sponsors employees for various training courses both locally and internationally as appropriate. In BUA Cement Plc, all employees are involved in mapping the future of the business with open communication playing a pivotal role.

Effective communication channels exist to keep employees fully informed about the Company's performance and progress. Employees make inputs concerning them through various general staff meetings. Through well designed and implemented incentive schemes, employees are encouraged to participate in the ownership of the business.

11. Events after Reporting Date

There were no material post statement of financial position events to date that have not been taken into consideration in the preparation of these financial statements.

12. Whistle Blowing Policy

The Company is committed to fair and ethical business practices with transparency and integrity. Hence, BUA Cement Plc has a clear whistle blowing policy that ensures all employees including prospective applicants, contractors, agents, partners, bankers, other service providers, suppliers, shareholders, host community and the general public is given a channel through which they can report all matters they suspect of involving anything illegal, unethical, harmful and or improper. All matters reported are accepted and treated with confidentiality to the identity of the whistle blower.

13. Complaints Management Policy

BUA Cement Plc is committed to providing high standards of services for shareholders, including a platform for efficient handling of shareholder complaints and enquiries, enabling shareholders

to have shareholder related matters acknowledged and addressed, providing sufficient resources to ensure that shareholders' complaints and enquiries are dealt with adequately, and in an efficient and timely manner and facilitating efficient and easy access to shareholder information.

The Company has therefore formulated a complaint management policy designed to ensure that complaints and enquiries from the Company's shareholders are managed in a fair, impartial, efficient and timely manner. Further, this policy has been prepared in recognition of the importance of effective engagement in promoting shareholder / investor confidence in the Company.

This policy sets out the broad framework by which BUA Cement Plc and its Registrar will provide assistance regarding shareholder issues and concerns. It also provides the opportunity for BUA Cement Plc's shareholders to provide feedback to the Company on matters that affect shareholders. This policy only relates to the Company's shareholders and does not extend to its customers, suppliers or other stakeholders.

The policy is available on the Company's website www.buacement.com for access by all shareholders.

14. Insider Information Policy

The Company has a policy on insider information and prohibition of insider dealings as required by rules and regulations and this policy has been made publicly available to all stakeholders.

BUA Cement Plc's insider information policy is to generally ensure that Board members, employees and its external stakeholders who have knowledge of confidential and potentially price sensitive information are aware of the prohibition imposed by law against using, disclosing (other than in the normal course of the performance of their duties) or encouraging transactions in securities on the basis of such inside information. In addition to obligations imposed by law, BUA Cement Plc

Directors' Report (Cont.)

wants Board members, employees and external stakeholders to respect the safeguarding of confidential information and potentially price sensitive information.

15. Approval of Financial Statements

The Directors on 12 May 2020 have approved these financial statements for the year ended 31 December 2019 for issue.

16. Independent Auditor

PricewaterhouseCoopers has expressed willingness to continue in office and will be re-appointed in accordance with Section 357(2) of the Companies and Allied Matters Act. A resolution will be proposed authorizing the directors to fix their remuneration at the Company's general meeting.

By order of the Board of Directors

8. To consider and if thought fit to pass the following as a special resolution of the Company;

"Article 77 of the articles of association of the Company be and is hereby deleted and replaced with the following (the "Amendment"):

The Directors may exercise all the powers of the Company to borrow money, and to mortgage or charge its undertaking, property and uncalled capital, or any part thereof and to issue debentures, debenture stock, and other securities, whether outright or as security for any debt, liability or obligation of the company or any third party".

Explanation Note to the above proposed Special Resolution

[It is proposed that the full borrowing powers of the company be vested in the Board. The proposed revision of article 77 of the article of association of the Company will vest the borrowing powers of the company in the board of directors when the resolution is approved]

BY ORDER OF THE BOARD,

AHMED ALIYU, Esq.

Company Secretary/Legal Adviser
FRC/2013/NBA/0000002396

Dated this 3rd day of September, 2020

NOTES:

- i. Compliance with Covid-19 Related Directives and Guidelines** – Shareholders should NOTE that all existing regulations and protocols as issued by the Federal Government of Nigeria, through the Nigeria Center for Disease Control and other regulatory authorities as regards meetings and gatherings of large number of persons would be strictly observed. Shareholders shall be strictly required to adhere to these regulations.
- ii. Proxies** – A member entitled to attend and vote at the meeting is entitled to appoint a proxy in his stead. A blank proxy form is enclosed and if intended to be used, the form should be returned to the Company Secretary not later than forty-eight hours (48 hours) before the meeting.
- iii. Attendance by Proxy** – in line with the Corporate Affairs Commission Guidelines on Holding of Annual General Meeting of Public Companies using proxies issued on March 26, 2020, attendance of the Meeting shall be by proxy only. Shareholders are required to appoint a proxy of their choice from the list of nominate proxies below:
 1. Sir Sunny Nwasu
 2. Dr. Foruk Umar
 3. Mrs. Adebisi Bakare Olanenwaju
 4. Alh. Sani Hashimu Gwandu
 5. Mr. Gbenga Idowu
 6. Mr. Shehu Mallam Mikail
 7. Mrs. Nike David
 8. Mr. Eric Akinduro
 9. Mrs. Esther Funke Augustine
 10. Alh. Musa Bichi
- iv. Live Stream of the Meeting** – The Meeting will be streamed live. This will enable shareholders and other stakeholders who will not be attending physically to follow the proceedings. The link for the Meeting online live streaming will be made available on the Company's website at www.buacement.com
- v. Closure of Register of Members** – Notice is hereby given that the register of members and transfer books of the Company will be closed from Monday, September 28, 2020 to Friday, October 2, 2020 (both dates inclusive) for updating the register.
- vi. Dividend Payment** – If the dividend payment of ₦1.75K per share proposed by the Directors is approved, dividend warrants or e-payment

will be paid on Friday, October 23, 2020 to the shareholders whose names appear in the register of members by close of business on Friday September 25, 2020.

- vii. Audit Committee** – In accordance with the Companies and Allied Matters Act, any member may nominate a shareholder as a member of the Audit Committee by giving notice in writing to the Company Secretary at least twenty-one days (21 days) before the Meeting. According to clause 30.2 of the Code of Corporate Governance issued by the Security & Exchange Commission, member of the Audit Committee should have basic financial literacy and should be able to read financial statements. At least one member should have knowledge of accounting or financial management. Therefore, the curriculum vitae of each nominee shall be attached to the nomination.

- viii. Rights of Securities Holders to ask Questions** – Securities Holders have right to ask questions not only at the Meeting, but also in writing prior to the Meeting, and such questions must be submitted to the Company on or before Tuesday, October 20, 2020.

Complaint Policy

1. Preamble

This Complaint Management Policy ("the Policy") has been prepared pursuant to the requirements of the Securities & Exchange Commission's Rules Relating to the Complaints Management Framework of the Nigerian Capital Market ("SEC Rules") issued on 16th February, 2015 and The Nigerian Stock Exchange Directive (NSE/LARD/LRD/CIR6/15/04/22) to all Listed Companies ("the NSE Directive") issued on 22nd April, 2015.

Further, this policy has been prepared in recognition of the importance of effective engagement in promoting shareholder/ investor confidence in the company.

This Policy sets out the broad framework by which BUA Cement Plc ("BUA Cement" or "the Company") and its Registrar will provide assistance regarding shareholder issues and concerns. It also provides the opportunity for BUA Cement's shareholders to provide feedback to the Company on matters that affect shareholders.

This Policy only relates to the Company's shareholders and does not extend to its customers, suppliers or other stakeholders.

2. Objective

This Policy is designed to ensure that complaints and enquiries from the Company's shareholders are managed in a fair, impartial, efficient, and timely manner.

3. BUA Cement's Commitment

BUA Cement Plc is committed to providing high standards of services for shareholders, including:

1. Providing a platform for efficient handling of shareholder complaints and enquiries;
2. Enabling shareholders to have shareholder related matters acknowledged and addressed;

3. Providing sufficient resources to ensure that shareholders' complaints and enquiries are dealt with adequately, and in an efficient and timely manner; and
4. Facilitating efficient and easy access to shareholder information.

4. Procedure for Shareholder Complaints/Enquiries

Shareholders can make complaints/enquiries and access relevant information about their shareholdings in the following manner:

- a. Contact the Registrar: Shareholders who wish to make a complaint/enquiry shall in the first instance contact the Registrar (see the contact details set out in section 8 of this Policy). The Registrar manages all the registered information relating to all shareholdings, including shareholder name(s), shareholder address and dividend payment instructions amongst others.

Upon receipt of a complaint or an enquiry, the Registrar shall take appropriate action to resolve the issue and immediately provide the relevant details of such complaint or enquiry to BUA Cement for monitoring, record keeping and reporting purposes.

In resolving complaints or enquiries, the Registrar shall be guided by the timelines stipulated in clause 5 (c-f) of this Policy.

- b. Contact BUA Cement's Company Secretary: If the Registrar is unable to satisfactorily address shareholders' enquiries and resolve their complaints then, shareholders should contact the office of the Company Secretary (see the contact details set out in section 9 of this policy).

Complaint Policy (Cont.)

5. Complaints/Enquiries Received Directly by BUA Cement Plc

Where a complaint or an enquiry is sent to BUA Cement directly, the Company upon receipt of the complaint or enquiry shall use its best endeavour to ensure that:

- a. Relevant details of the complaint or enquiry are immediately recorded.
- b. It forwards the complaint or enquiry to the Registrar and that the Company provides a response or the Registrar within the period set out in sub-clauses (c-f) below.
- c. Complaints or enquiries received by e-mail are acknowledged within two (2) working days of receipt.
- d. Complaints or enquiries received by post are responded to within five (5) working days of receipt.
- e. The Registrar or company resolves complaints or enquiries within ten (10) working days of receipt.
- f. The Nigerian Stock Exchange is notified, within two (2) working days, of the resolution of a complaint or enquiry.
- g. Where a complaint/enquiry cannot be resolved within the stipulated period set out above, the shareholder shall be notified that the matter is being investigated. Delays may be experienced in some situations, including where documents need to be retrieved from storage.
- h. the same or similar medium that was used for the initial enquiry is used in providing a response (whether by email, phone, post, or fax), unless otherwise notified to or agreed with the shareholder.

6. Electronic Complaints Register and Quarterly Reporting Obligations

BUA Cement shall maintain an electronic complaints register.

The electronic complaints register shall include the following information:

9. The date that the enquiry or complaint was received.
10. Complainant's information (including name, address, Telephone number, e-mail address).
11. Nature and Details of the enquiry or complaint.
12. Action Taken/Status.
13. Date of the Resolution of the complaint.

BUA Cement shall also provide information on the details and status of complaints to the Securities and Exchange Commission and The Nigerian Stock Exchange on a quarterly basis.

7. Liaison with the Registrar

During the course of investigating a shareholder's enquiry, complaint or feedback, BUA Cement may liaise with the Registrar. BUA Cement's engagement with the Registrar will include:

14. Determining the facts;
15. Determining what action has been undertaken by the Registrar (if any); and
16. Coordinating a response with the assistance of the Registrar.

Complaint Policy (Cont.)

8. Contact Details of the Registrar

The Registrar may be contacted as follows:

Africa Prudential Plc
220B, Ikorodu Road
Palmgrove
P.M.B. 12649 Marina
Lagos
Telephone: +234 (0) 7080606420
E-mail: info@africaprudential.com
Website: www.africaprudential.com

9. Contact Details of BUA Cement's Company Secretary

Shareholders seeking to escalate unresolved complaints are invited to contact the Company Secretary as follows:

Company Secretary/Legal Adviser
BUA Cement Plc
5TH Floor BUA Towers
PC 32 Churchgate Street
P. O. Box 70106
Victoria Island
Lagos
Telephone: +234 (0) 1 461066-70
E-mail: info@buacement.com
Website: www.buacement.com

10. Shareholder Access to this Policy

Shareholders will have access to this policy through the following avenues:

17. The Policy shall be available on BUA Cement's website www.buacement.com
18. A copy of the Policy may be requested by contacting the Office of the Company Secretary/Legal Adviser.
19. The Policy shall be made available to shareholders at general meetings of the Company.

11. Fees and Charges

Wherever possible, and subject to statutory requirements, BUA Cement will not charge shareholders for making enquiries, giving feedback, providing a response or for any aspect in the course of resolving a shareholder matter.

Shareholders are informed that in some circumstances the Registrar may charge shareholders a fee (for example, to resend previous dividend statements upon request by the shareholder or to process transmission through probate etc.).

12. Amendment/Review of this Policy

BUA Cement may from time to time review this Policy and the procedures concerning shareholder enquiries, complaints, and feedback.

Any changes or subsequent versions of this Policy will be published on BUA Cement's website www.buacement.com

Risk Management

A. Introduction

Our Enterprise-wide risk management framework showcases how we appraise risk at BUA Cement, with The Board ensuring proper alignment of policies and procedures between the overall strategy and risk appetite.

We adopt a top-down, bottom-up approach, to the identification and management of risk, led by the various members of the Management's Risk Committee, who are drawn from various units across the Company and are well-equipped to identify the risk exposed to, resulting from business activities. Furthermore, these members assess both the global and domestic environment for trends, which might constitute possible disruptions and opportunities.

It is important to note that the Management's Risk Committee discusses with various risk owners to mitigate possible risk areas, pertaining to probable impacts.

B. Our ERM Framework

Through our Enterprise Risk Management (ERM) framework, we identify, assess, mitigate and monitor risks, using defence lines, which consist of: the Board of Directors, the Risk Management Committee and the Management's Risk Committee (Figure 1). In addition, the external auditors provide their assessment to the Board Audit Committee and the Finance and General Purpose Committee (FGPC).

Figure 1: BUA Cement's Defence lines

To ensure proper reinforcement and alignment for effectiveness, the governance structure for risk management is as follows:

1. BOARD OF DIRECTORS

The Board is made of seven members, which consists of a Chairman, three Non-Executive Directors, two Independent Directors and an Executive Director, who is the MD/CEO. The Board is responsible for the determination of the vision, mission and strategy of BUA Cement, and serves as a guide for setting standards for current and future operations of the Company. It also reviews and evaluates current and future opportunities and threats in both global and domestic environments along with setting and authorizing policy, management objectives whilst ensuring these are implemented.

2. RISK MANAGEMENT COMMITTEE

The committee comprises of four members, headed by Non-Executive Director, as Chairman. They are responsible for the alignment of the medium and long-term strategies, in line with acceptable risk appetites. They also evaluate and monitor the internal control polices, to ensure risks are given appropriate attention.

3. MANAGEMENT'S RISK COMMITTEE

This committee consists of 10 members, and is headed by the risk manager, who is a member of the management team. Members of this committee are drawn from various units of the Company and are responsible for identifying various probable risks. These risks are assessed, analysed, and graded (low, medium, or high) by the committee at its monthly meetings. Besides being responsible for reviewing existing and identifying new risks, the Committee is equally tasked with proposing appropriate mitigants.

Furthermore, they are responsible for the preparation and periodic review of the Company's risk register, for changes to potential risks and how it might impact profitability or business continuity. A quarterly report with recommendations is prepared and sent to the Board through the Risk Management Committee.

Risk Management (Cont.)

C. Risk Management Process

1. RISK IDENTIFICATION

This is the first step in our risk management process and is driven by the adoption of two techniques in the risks identification process, namely: risk surveys and risk brainstorming (Figure 2). Under the risk survey measure, questionnaires are administered to every unit in the Company, requesting them to highlight possible risks and who is responsible for these risks. Information gathered is deliberated on, by the Management's Risk Committee.

2. RISK ASSESSMENT

This involves the probable likelihood and the impact of identified risks. Risks are assessed on an inherent and a residual basis.

3. RISK TREATMENT

After the risks were identified and assessed, the risk

management committee selects the appropriate risk response technique (i.e. avoiding, accepting, sharing or transferring) in line with the company's risk tolerance and appetite. The management prepares a quarterly report with recommendations to the board. The board will deliberate and take a decision which will be implemented by the management.

4. MONITORING AND CONTROL

Monitoring, ensures the efficacy of measures and responses to identified risk with modifications, where necessary. It also includes the measurement of performances against set targets while also ensuring adherence to boarder issues such as the BUA's philosophy, which encompasses the culture and its values. The monitoring activities are being conducted by the Management's Risk Committee, who review, conduct monthly assessments and issue quarterly reports to the Board through the Risk Management Committee.

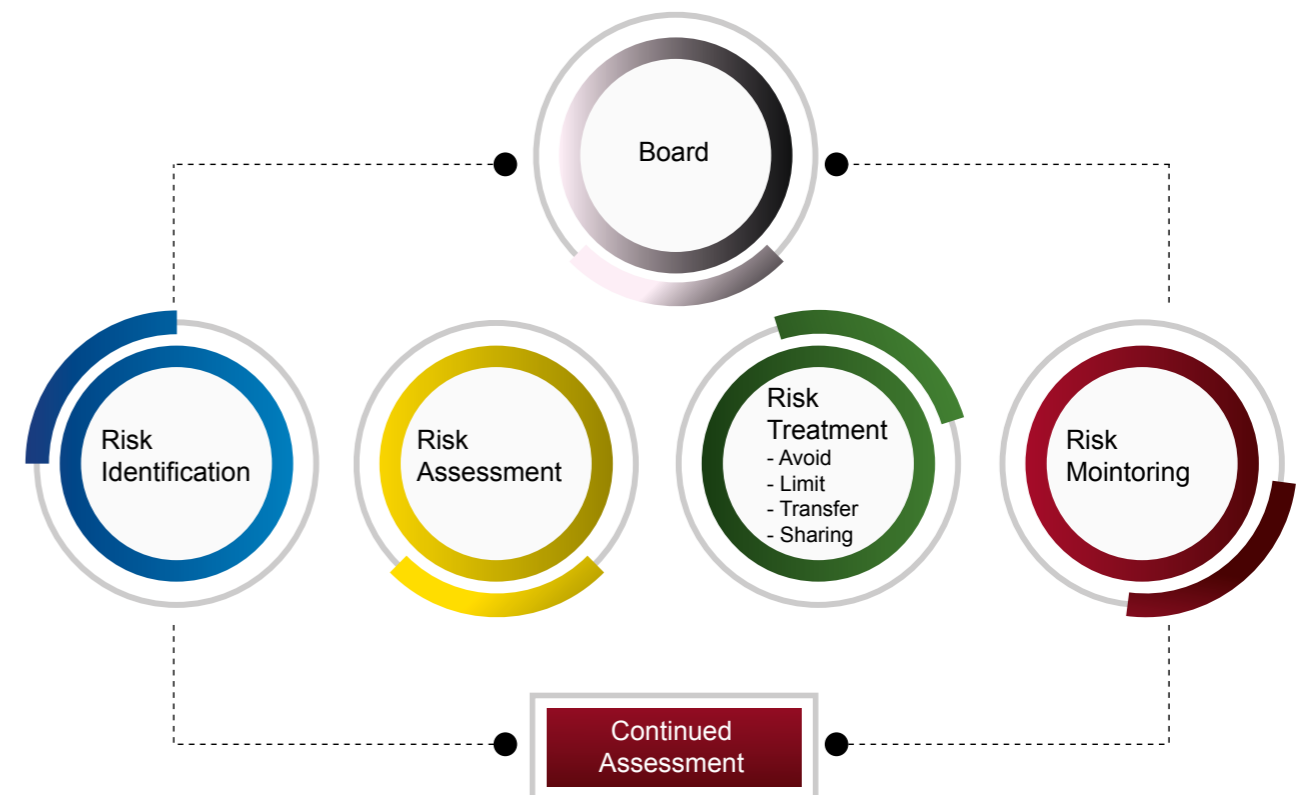

Figure 2: BUA Cement's Risk Mitigation Process

Risk Management (Cont.)

D. Risk Incidents and Review in 2019

During the year, the Risk Management Committee, focused on the wave of events in the domestic and international environments alongside their implications for the business; particularly, with the wave protectionism, low oil prices and the African Continental Free Trade Agreement (ACFTA).

Though for proper assessments the Committee focuses on risk incidences which are categorized as follows: strategy, operational, financial, market, liquidity, business and reputational risk (Figure 3). The Committee was particularly focused on reputational risk, operational risk, business risk, strategy risk and financial risk, in 2019 along these areas:

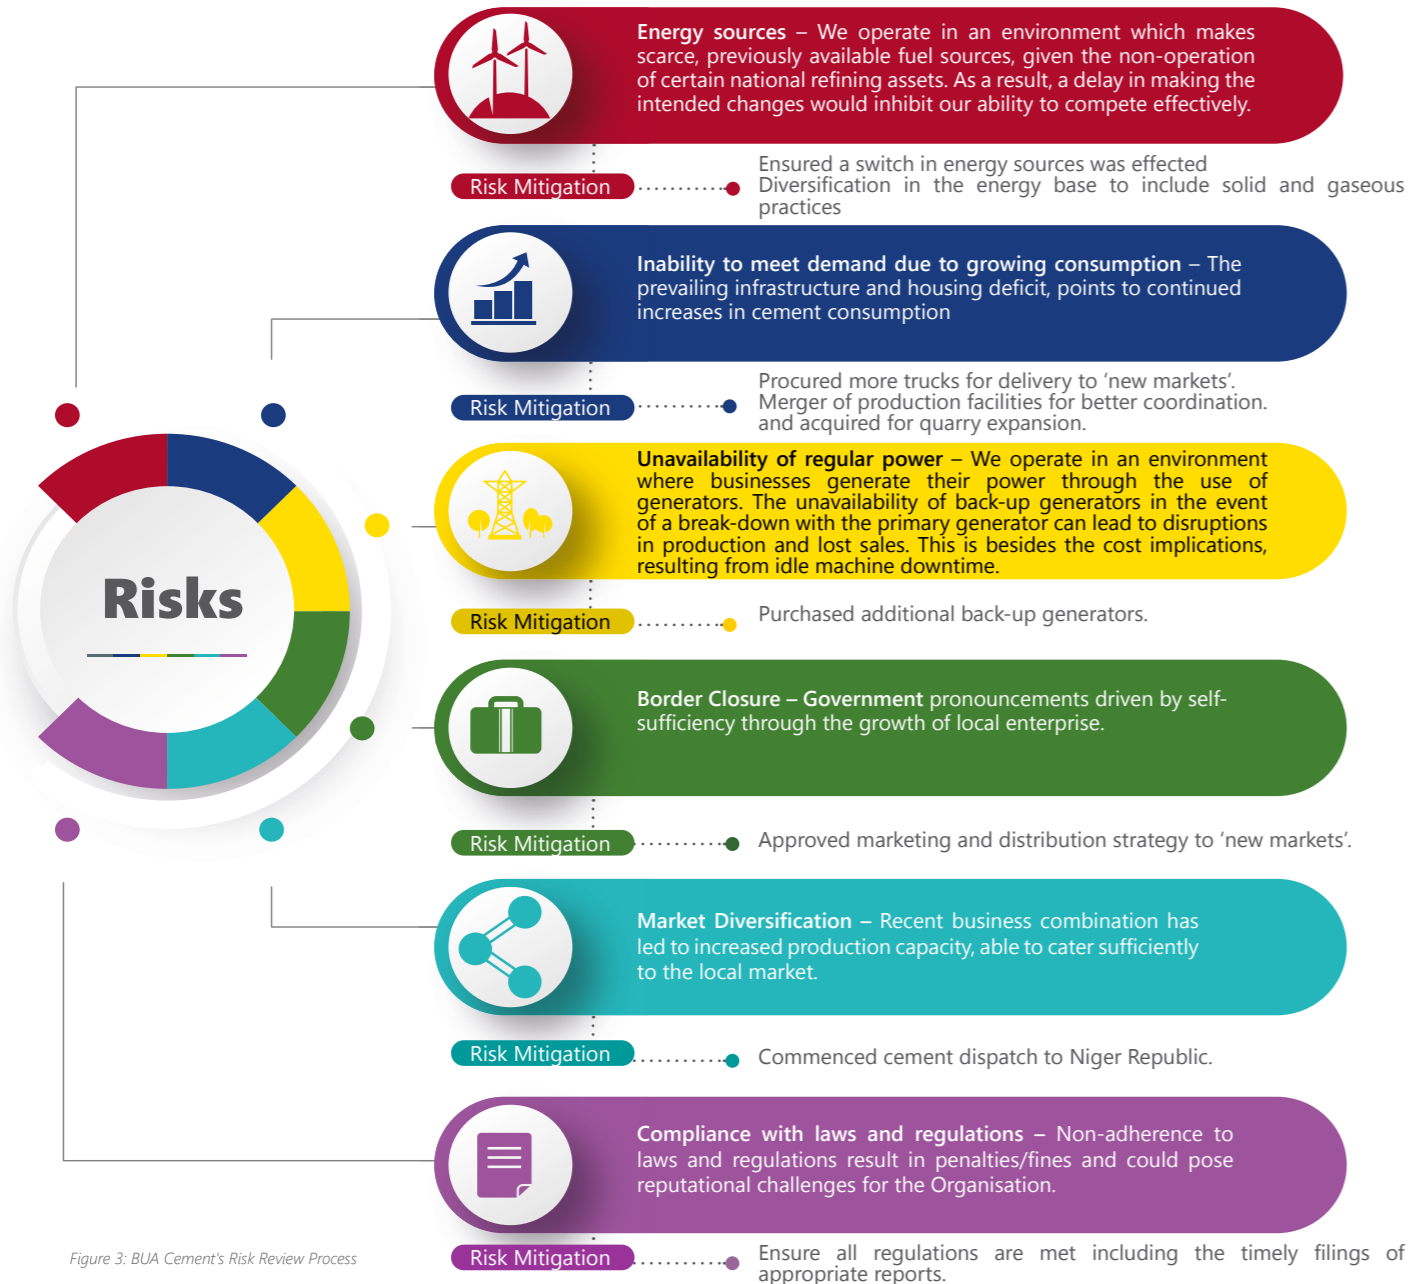

Figure 3: BUA Cement's Risk Review Process

Financial Information

Statement of Directors' Responsibilities

The Companies and Allied Matters Act requires the Directors to prepare financial statements for each financial year that give a true and fair view of the state of financial affairs of the Company at the end of the year and of its profit or loss. The responsibilities include ensuring that the Company:

- keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Company and comply with the requirements of the Companies and Allied Matters Act;
- establishes adequate internal controls to safeguard its assets and to prevent and detect fraud and other irregularities; and
- prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgements and estimates, and are consistently applied.

The Directors accept responsibility for the financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board, and the requirements of the Financial Reporting Council of Nigeria Act and the Companies and Allied Matters Act.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Company and of its profit. The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Company will not remain a going concern for at least twelve months from the date of this statement.

Independent Auditor's Report

Independent auditor's report

To the Members of BUA Cement Plc

Report on the audit of the financial statements

Our opinion

In our opinion, BUA Cement Plc's ("the company's") financial statements give a true and fair view of the financial position of the company as at 31 December 2019, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies and Allied Matters Act and the Financial Reporting Council of Nigeria Act.

What we have audited

BUA Cement Plc's financial statements comprise:

- the statement of profit or loss and other comprehensive income for the year ended 31 December 2019;
- the statement of financial position as at 31 December 2019;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), i.e. the IESBA Code issued by the International Ethics Standards Board for Accountants. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

PricewaterhouseCoopers Chartered Accountants, Landmark Towers, 5B Water Corporation Road, Victoria Island, Lagos, Nigeria

Independent Auditor's Report (Cont.)

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Provision for decommissioning liabilities (Refer to notes 2.15, 4.1.2 and 19 to the financial statements)</p> <p>As at 31 December 2019, the directors recognised provision for decommissioning liabilities of N4 billion in relation to the restoration of active quarries to acceptable land use conditions.</p> <p>We focused on this area due to materiality of the provision and because the directors exercised significant judgement in estimating future restoration costs and in the parameters used for the estimation of the decommissioning provision.</p> <p>Areas where significant judgements were exercised by the directors include:</p> <ul style="list-style-type: none"> estimating, using in-house and external experts, the future restoration costs, useful lives of mining quarry sites and minable reserves used in the decommissioning liabilities model; methodology used in determining the present value of the estimated costs using current prices adjusted for inflation and discounted using a risk-free rate; and in determining the useful life of mining quarries. 	<p>We adopted a substantive approach in assessing the provision for decommissioning liabilities. Specifically, we performed the following procedures:</p> <ul style="list-style-type: none"> Assessed the professional competence and objectivity of the in-house and external experts. Gained an understanding of methodology applied by the directors and the experts in estimating the future restoration costs, useful lives of mining quarries and minable reserves used in the decommissioning liabilities computation. Tested the reasonableness of key data input used in the decommissioning liabilities computation, such as minable reserve, actual resources mined, useful lives of mining quarry sites and estimated future restoration costs by comparing to the company's underlying records and experts' report. Engaged the services of our accounting consulting experts to test the appropriateness of key parameters used in the decommissioning liabilities calculations like the risk-free discount rate and the inflation rate by benchmarking liable external sources. Also, to test the decommissioning liabilities calculations prepared by directors, including the present value of future costs and the interest expense on the liabilities by reviewing the formulae and methodology applied for reasonableness. Evaluated appropriateness of the related disclosures in accordance with the applicable financial reporting framework.

Other information

The directors are responsible for the other information. The other information obtained at the date of this auditor's report are the Corporate information, Report of the directors, Corporate governance report, Report of the audit committee, Statement of directors' responsibilities, Statement of value added and Five-year financial summary but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Independent Auditor's Report (Cont.)

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors and those charged with governance for the financial statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Companies and Allied Matters Act, the Financial Reporting Council of Nigeria Act, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Report (Cont.)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

The Companies and Allied Matters Act requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- ii) the company has kept proper books of account, so far as appears from our examination of those books and returns adequate for our audit have been received from branches not visited by us;
- iii) the company's statement of financial position and statement of profit or loss and other comprehensive income are in agreement with the books of account.

Chimaobi Madukwe	P	P	P	P	P
Shehu Abubakar	*	*	*	*	*

Note:

P= Present

* = Appointment with effect from 28 January 2020

Roles and responsibilities

The Audit Committee carried out its functions through the attendance of Audit Committee meetings and discussions with executive management, internal audit and external advisors.

Statutory duties

The Audit Committee's role and responsibilities include statutory duties as stipulated by the Companies and Allied Matters Act and further responsibilities assigned to it by the Board.

The Audit Committee is satisfied that it has complied with its legal, regulatory and other responsibilities.

Report of the Audit Committee (Cont.)

External auditor appointment and independence

In terms of the provisions of the Companies and Allied Matters Act, the Audit Committee has satisfied itself that the external auditor, PricewaterhouseCoopers, is independent of the Company and has ensured that the appointment of the auditor complied with the Companies and Allied Matters Act and any other legislation relating to the appointment of auditors.

The Committee, in consultation with executive management, agreed to the engagement letter, terms, audit plan and budgeted fees for the year ended 31 December 2019.

Financial statements and accounting practices

The Audit Committee has reviewed the accounting policies and the financial statements of the Company and is satisfied that they are appropriate and comply with the International Financial Reporting Standards, the Companies and Allied Matters Act and the Securities and Exchange Commission listing requirements.

Internal financial controls

The Audit Committee has overseen a process by which internal audit performed an assessment of the effectiveness of the Company's system of internal control, including internal financial controls. The Audit Committee is satisfied with the effectiveness of the Company's internal financial controls.

Duties assigned by the Board

In addition to the statutory duties of the Audit Committee, as reported above, the Board of directors has determined further functions for the audit committee to perform. These functions include the following:

- i. Going Concern
The Audit Committee reviews the going concern status of the Company at each meeting and makes recommendations to the Board.
- ii. Governance Risk
The Audit Committee fulfills an oversight role regarding financial reporting risks, internal financial controls, fraud risk as it relates to financial reporting and information technology risks as it relates to financial reporting.
- iii. Internal Audit
The Audit Committee is responsible for ensuring that the Company's internal audit function is independent and has the necessary resources, standing and authority within the Company to enable it to discharge its duties.
- iv. Evaluation of the expertise and experience of the Chief Financial Officer and finance function
The Audit Committee has satisfied itself that the Chief Financial Officer has appropriate expertise and experience. The Audit Committee has considered, and has satisfied itself of the appropriateness of the expertise and adequacy of resources of the finance function and experience of the senior members of management responsible for the financial function.

In compliance with the Provisions of Section 359(6) of the Companies and Allied Matters Act, we report as follows:

- We have ascertained and hereby confirm that the accounting and reporting policies of the Company are in accordance with legal requirements and agreed ethical practices;

Report of the Audit Committee (Cont.)

- The scope and planning of audit requirements for the year ended 31 December 2019 are adequate;
- We are satisfied with the External Auditors' Management Report for the year ended 31 December 2019, as well as the response of the Management thereto.

Notes to the Financial Statements

1. General information

BUA Cement Plc ("the Company") is a Company domiciled in Nigeria. The Company was incorporated in Nigeria as a limited liability company on 30 May 2014 and commenced business in August 2015. The Company was converted from a private limited liability company to a public limited liability company on 16 May 2019, as a prelude to a scheme of merger. The Company later merged with the defunct Cement Company of Northern Nigeria Plc in a scheme of merger on 23 December 2019 and was listed on the Nigerian Stock Exchange on 9 January 2020. BUA Cement Plc is ultimately owned by Alhaji Abdul Samad Rabiu, CON.

The address of its registered office is PC 32 Churchgate Street, Victoria Island, Lagos. The principal activities of the Company are manufacturing and sales of cement to the general public. These activities are conducted primarily in Nigeria.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, except for the adoption of new accounting standards during the year explained in Note 4.2

2.1 Basis of preparation

The financial statements have been prepared in compliance with the Companies and Allied Matters Act (CAMA) and the International Financial Reporting Standards (IFRSs), including International Accounting Standards (IAS) and interpretations issued by the IFRS Interpretations Committee (IFRSIC). Further standards may be issued by the International Accounting Standards Board (IASB) and may be subject to interpretations issued by the IFRS IC.

The financial statements have been prepared under the historical cost convention, except for decommissioning liabilities.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires Directors to exercise judgment in applying the Company's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Directors believe that the underlying assumptions are appropriate and that the Company's financial statements therefore present the financial position and results fairly. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

The financial statements comprise the statement of profit or loss and other comprehensive income, the statement of financial position, the statement of changes in equity, the statement of cash flows and the notes to the financial statements.

The financial statements are presented in Nigerian Naira and all values are rounded to the nearest thousand (₦'000) except when otherwise indicated.

2.1.1 Going concern

The financial statements have been prepared in accordance with the going concern principle under the historical cost convention. The Directors have no doubt that the Company will remain in existence twelve (12) months after the statement of financial position date.

Notes to the Financial Statements (Cont.)

The Company reported a profit of ₦60.5 billion for the year ended 31 December 2019 (2018: ₦64.1 billion). At the statement of financial position date, the Company had a net asset of approximately ₦363.3 billion (2018: ₦308.6 billion) and net current liability of approximately ₦34.3 billion (2018: ₦87.2 billion).

2.1.2 Changes in accounting policies and disclosures

2.1.2.1 New standards and interpretations adopted by the Company

The Company has applied the following standards and amendments for the first time in the annual reporting period commencing 1 January 2019.

IFRS 16 - 'Leases' (effective 1 January 2019)

The Company has adopted IFRS 16 with a transition date of 1 January 2019. This resulted in changes in accounting policies for leases where the Company is the lessee. This is disclosed in note 2.27 and the impact of the change in note 4.2.

As permitted by the transitional provisions of IFRS 16, the Company elected not to restate comparative figures. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening retained earnings on 1 January 2019.

Amendments to IAS 19 - Plan amendment, curtailment or settlement (effective 1 January 2019)

The main change resulting from this amendment is a requirement for entities to use updated assumptions from the date of the change to calculate the current service cost and net interest for the remainder of the reporting period after a plan amendment, curtailment or settlement. Entities are also required to recognise in profit or loss any reduction in a surplus as a result of asset ceiling, either as part of past service cost, or as a gain or loss on settlement, and changes in the asset ceiling through other comprehensive income.

IFRIC 23 'Uncertainty over income tax treatments' (effective 1 January 2019)

This interpretation clarifies how to apply the recognition and measurement requirements in IAS12 'Income taxes' when there is uncertainty over income tax treatments. In such a circumstance, an entity shall recognise and measure its current or deferred tax asset or liability applying the requirements in IAS 12 based on taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined applying this Interpretation.

The new standards and the amendments listed above do not have material impact on the financial statements.

2.1.2.2 New standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not yet effective or mandatory for annual periods beginning on or after 1 January 2019 and have not been early adopted by the Company. These standards are not expected to have a material impact on the financial statements.

2.2 Foreign currency translation

a. Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entities within the Company operates. The financial statements are presented in thousands of Naira which is the Company's functional and presentation currency.

Notes to the Financial Statements (Cont.)

b. Transactions and balances

Foreign currency transactions are translated into Naira using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss within administrative expenses.

2.3 Property, plant and equipment

All property, plant and equipment are stated at historical cost less depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

Capital work in progress are not depreciated. Depreciation of assets commences when assets are available for use. Depreciation on other assets is calculated using the straight line method of calculation i.e. the cost of the assets less its residual value, if applicable, over the number of useful lives (in years), as follows:

	Useful life (years)
Land	Not depreciable
Buildings	30 - 50
Quarry equipment	6 - 25
Trucks	4
Plant and machinery	3 - 40
Furniture and fittings	5
Tools and laboratory equipment	5
Computers and office equipment	3 - 5
Motor vehicles	4
Construction work-in-progress	Nil

Notes to the Financial Statements (Cont.)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the estimated selling price in the ordinary course of business less costs to sell and value in use. Impairment losses and reversal of previously recognised impairment losses are recognised within "administrative expenses" in profit or loss.

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'other income or other expenses – net' in profit or loss.

Quarry exploration and production assets

Accounting for quarry exploration and production assets

Quarry exploration and evaluation expenditures are accounted for using the 'successful efforts' method of accounting. Costs are accumulated on a quarry-by-quarry basis. Geological and geophysical costs are expensed as incurred. Costs directly associated with a quarry, and exploration costs, are capitalised until the determination of minable reserves is evaluated. If it is determined that commercial discovery has not been achieved, these costs are charged to expenses.

Capitalisation is made within property, plant and equipment or intangible assets according to the nature of the expenditure. Once commercial reserves are found, exploration and evaluation assets are tested for impairment and transferred to development tangible and intangible assets. No depreciation and/or amortisation is charged during the exploration and evaluation phase.

Development tangible and intangible assets

Expenditure on the construction, installation or completion of infrastructure facilities on commercially proven quarries and the drilling of commercially proven quarries, is capitalised within property, plant and equipment and intangible assets according to nature. When development is completed on a specific quarry, it is transferred to quarry equipment or intangible assets.

Depreciation/Amortisation

No depreciation or amortisation is charged during the exploration and evaluation phase.

Quarry tangible and intangible assets are depreciated or amortised using the unit-of-production ("UoP") method. UoP rates are based on proved developed reserves, which are limestone and laterite reserves estimated to be recovered from existing facilities using current operating methods.

2.4 Intangible assets

Costs associated with maintaining software programmes are recognised as an expense when incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use it;

Notes to the Financial Statements (Cont.)

- there is an ability to use the software; it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and Other resources to complete the development and to use the software are available; and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

Licenses

Licenses are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Software

Costs associated with acquiring software programmes are capitalised at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Amortisation methods and useful life

The accumulated capitalised costs from exploration assets are amortised over the expected total production using a unit of production (UoP) basis. UoP is the most appropriate amortisation method because it reflects the pattern of consumption of the reserves' economic benefits.

The Company amortises other intangible assets with a limited useful life using the straight-line method over the asset's estimated useful lives or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the company will extend the lease longer than the estimated useful life.

	Useful life (years)
Licenses	2 - 5
Software	3

Notes to the Financial Statements (Cont.)

2.5 Impairment on non-financial asset

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.6 Financial instrument

The Company's accounting policies were changed to comply with IFRS 9. IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities; derecognition of financial instruments; impairment of financial assets and hedge accounting. IFRS 9 also significantly amends other standards dealing with financial instruments such as IFRS 7 Financial Instruments: Disclosures.

2.6.1 Classification and measurement

i. Financial assets

It is the Company's policy to initially recognise financial assets at fair value plus transaction costs, except in the case of financial assets recorded at fair value through profit or loss which are expensed in profit or loss.

Classification and subsequent measurement is dependent on the Company's business model for managing the asset and the cashflow characteristics of the asset. On this basis, the Company may classify its financial instruments at amortised cost, fair value through profit or loss and at fair value through other comprehensive income.

Financial assets held by the Company are classified based on the following:

- Hold to collect: Financial assets in this category are held by the Company solely to collect contractual cash flows and these cash flows represent solely payments of principal and interest. Assets held under this business model are measured at amortised cost.
- Hold to collect and sell: Financial assets in this category are held to collect contractual cash flows and sell. The cash flows represent solely payment of principal and interest. These financial assets are measured at fair value through other comprehensive income.
- Hold to sell/residual: This category is the residual category for financial assets that do not meet the criteria described above. Financial assets in this category are managed in order to realise the asset's fair value.

The financial assets of the Company are held to collect contractual cashflows that are solely payments of principal (for non-interest bearing financial assets) or solely payments of principal and interest (for interest bearing financial assets).

The Company's financial assets includes trade receivables, due from related parties and cash and cash equivalents. They are included in current assets, except for those with maturities greater than 12 months after the reporting date. Interest income from these assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss.

Notes to the Financial Statements (Cont.)

ii. Financial liabilities

Financial liabilities of the Company are classified and measured at fair value on initial recognition and subsequently at amortised cost net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, payable to related parties, lease liabilities and borrowings.

2.6.2 Impairment of financial assets

Recognition of impairment provisions under IFRS 9 is based on the Expected Credit Loss (ECL) model. The ECL model is applicable to financial assets measured at amortised cost or at fair value through other comprehensive income (FVOCI). The measurement of ECL reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date, about past events, current conditions and forecasts of future economic conditions.

The simplified approach is applied to trade receivables while the general approach is applied to cash and cash equivalents and amounts due from related parties.

The simplified approach requires lifetime expected credit losses to be recognised on initial recognition of the receivables. This involves determining the expected loss rates using a provision matrix that is based on the Company's historical default rates observed over the expected life of the receivable and adjusted for forward-looking estimates. This is then applied to the gross carrying amount of the receivable to arrive at the loss allowance for the period.

The three-stage (general) approach assesses impairment based on changes in credit risk since initial recognition using the past due criterion and other qualitative indicators such as increase in political risk concerns or other macroeconomic factors and the risk of legal action, sanction or other regulatory penalties that may impair future financial performance. Financial assets classified as stage 1 have their ECL measured as a proportion of their lifetime ECL that results from possible default events that can occur within one year, while assets in stages 2 or 3 have their ECL measured on a lifetime basis.

Under the three-stage approach, the ECL is determined by projecting the probability of default (PD), loss given default (LGD) and exposure at default (EAD) for each individual exposure. The PD is based on default rates determined by external rating agencies for the counterparties. The LGD is determined based on management's estimate of expected cash recoveries after considering the cash recovery ratio of the counterparties. The EAD is the total amount outstanding at the reporting period. These three components are multiplied together and adjusted for forward looking information, such as the gross domestic product (GDP) growth rate and inflation rate in Nigeria, to arrive at an ECL which is then discounted to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the related financial assets and the amount of the loss is recognised in profit or loss.

2.6.3 Significant increase in credit risk and default definition

The Company assesses the credit risk of its financial assets based on the information obtained during periodic review of publicly available information, industry trends and payment records. Based on the analysis of the information provided, the Company identifies the assets that require close monitoring.

Furthermore, financial assets that have been identified to be more than 30 days past due on contractual payments are assessed to have experienced significant increase in credit risk. These assets are grouped as part of stage 2 financial assets where the three-stage approach is applied.

Notes to the Financial Statements (Cont.)

In line with the Company's credit risk management practices, a financial asset is defined to be in default when contractual payments have not been received at least 90 days after the contractual payment period. Subsequent to default, the Company carries out active recovery strategies to recover all outstanding payments due on receivables. Where the Company determines that there are no realistic prospects of recovery, the financial asset and any related loss allowance is written off either partially or in full.

2.6.4 Derecognition

i. Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and the transfer qualifies for derecognition. Gains or losses on derecognition of financial assets are recognised in profit or loss.

Financial liabilities

The Company derecognises a financial liability when it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised immediately in the statement of profit or loss.

If the modification of the existing liability does not meet the requirements for de-recognition of the existing liability, the difference in the carrying amount and the modified liability amount is recognised immediately as a modification gain or loss in profit or loss.

2.6.5 Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

The legally enforceable right is not contingent on future events and is enforceable in the normal course of business, and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.7 Inventory

Inventories are valued at lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs to sell.

Cost comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition but excludes borrowing costs.

The cost of engineering spares and fuel is determined using the weighted average method. Work-in-progress are valued at purchase cost incurred to date.

The cost of packing materials is determined using the first-in, first-out (FIFO) method and comprises purchase cost and other direct costs, incurred in bringing packing materials to its present location and condition but excludes borrowing costs.

Notes to the Financial Statements (Cont.)

Allowance is made for excessive, obsolete and slow moving items. Write-downs to net realizable value and inventory losses are expensed in the period in which the write-downs or losses occur.

2.8 Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within 90 days and therefore are all classified as current.

2.9 Other receivables

Other receivables are amounts paid for goods or services which are yet to be received/enjoyed. Other receivables are unsecured and no interest is charged on these receivables. Other receivables have been included in trade and other receivables on the statement of financial position.

2.10 Statement of cash flows

The statement of cash flows shows the changes in cash and cash equivalents arising during the period from operating activities, investing activities and financing activities.

The cash flows from operating activities are determined by using the indirect method. Profit before tax is therefore adjusted by non-cash items. All income and expenses from non-cash transactions that are attributable to investing or financing activities are eliminated. Interest repayments on external borrowings are presented in financing activities.

In the statement of cash flows, cash and cash equivalents includes cash in hand, deposit held at call with banks, other short term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings in current liabilities.

The cash flows from investing and financing activities are determined by using the direct method.

2.11 Cash and cash equivalents

Cash and cash equivalents include cash at hand and deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash.

2.12 Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is within one year or less. Otherwise, they are classified as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.13 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Notes to the Financial Statements (Cont.)

2.14 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequent carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Amortised cost is calculated by taking into account any fees or costs that are integral part of the effective interest rate (EIR). EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial instrument. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the Effective Interest Rate (EIR), but not future credit losses.

The EIR amortisation is included in interest expense in the statement of profit or loss.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are derecognised from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

2.15 Provision for decommissioning liabilities

Provision for decommissioning liabilities associated with the Company's mining operations are based on land restoration processes and analysis of site conditions such as projected pit area, borrow material area, waste dump area and top soil dump area.

Under the Nigerian Minerals and Mining Act 2007 and the Health, Safety, and Reclamation Code, the primary objective of the reclamation plan will be to return, where practical, all areas disturbed by mining operations to an acceptable land use and capability. The reclamation method is forestry reclamation approach after mining activities. The disturbed mining areas are to be back filled, compacted, re-graded and re-vegetated to support forest land uses.

Decommissioning provisions are measured at the present value of the expected future cash flows that will be required to perform the site reclamation. The effect of the time to expected closure will be reflected in the discounting of the provision. The discount rate used is the pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost in profit or loss.

Decommissioning provisions are updated at each statement of financial position date for changes in the estimates of the amount or timing of future cash flows and changes in the discount rate. Changes to provisions

Notes to the Financial Statements (Cont.)

that relate to site reclamation cost are added to or deducted from the carrying amount of the related asset in the current period.

2.16 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, net of Value Added Tax, excise duties, returns, customer discounts and other sales-related discounts.

Revenue from the sale of products is recognised in profit or loss when the contract has been approved by both parties, rights have been clearly identified, payment terms have been defined, the contract has commercial substance, and collectability has been ascertained as probable. Collectability of customer's payments is ascertained based on the customer's historical records, guarantees provided, the customer's industry and advance payments made if any.

The five step recognition process for revenue is listed below:

- Identify the contract with a customer
- Identify the performance obligation in the contract
- Determine the transaction price
- Allocate the prices to the performance obligations.
- Recognise revenue.

The probability that a customer would make payment is ascertained based on the evaluation done on the customer at the inception of the contract. The Company is the principal in all of its revenue arrangements since it is the primary obligor in the revenue arrangements, has inventory risk and determines the pricing for the goods and services.

Sales of goods

Revenue is recognised when the control of the goods is transferred to the customer. This occurs when the goods are delivered to the customer or when goods are picked up by the customers. This represents the single performance obligation in all revenue contracts with customers.

Revenue from sale of cement is recognised based on the price specified in the contract, net of the estimated rebates and returns. Rebates are estimated at the inception of the contract except where the time lag between the recognition of revenue and granting rebates is within the same month. Returns on goods are estimated at the inception of the contract except where the timing between when the revenue is recognised and when the returns occur is considered immaterial. In these instances, the returns are accounted for when they occur.

Advance payment made by customers for goods are deferred and recognised as contract liabilities in the statement of financial position.

The delivery service provided by the Company is a sales fulfillment activity and the income earned is recognised at the point in time when the goods are delivered to the customer.

Delivery of cement is done via third-party haulage service providers. The Company charges customers a separate fee for shipping and handling costs which serves as a direct reimbursement of costs paid to the third party for shipping.

Delivery occurs when the goods have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and when the customer has accepted the products in accordance with the sales contract, or the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

Notes to the Financial Statements (Cont.)

Disaggregation of revenue from contract with customers

The Company recognises revenue from the transfer of goods at a point in time from the sale of bagged cement and bulk cement. The Company has determined that the disaggregation of revenue based on the criteria of stream of revenue meets the disaggregation of revenue disclosure requirement of IFRS 15. It depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. See further details in Note 5.

2.17 Other income

This comprises haulage income from delivery of goods to customers, profit from sale of property, plant and equipment, profit from sale of scraps and insurance claim etc. Income earned from haulage is recognised at the point in time when the goods are delivered to the customer. Income arising from disposal of items of property, plant and equipment and scraps is recognised at the time when transactions are finalised and ownership transferred by the Company. The profit on disposal is calculated as the difference between the net proceeds and the carrying amount of the assets.

2.18 Expenses

Expenses are recognised as they accrue during the course of the year. Analysis of expenses recognised in the statement of profit or loss is presented in classification based on the function of the expenses.

The Company classifies its expenses as follows:

- Cost of sales;
- Selling and Distribution expenses;
- Administrative expenses;

a. Cost of goods sold These
are the direct costs attributable to the production of the cement sold by the Company. These costs includes directly attributable costs such as the cost of direct materials, direct labour, energy costs, as well as production overheads, including depreciation of production facilities. The cost of goods sold includes write-downs of inventories where necessary.

b. Distribution and selling expenses
These comprise of the cost of marketing, the sales organization, and distribution logistics.

c. Administration expenses
These comprise of the cost of running the administrative function of the Company.

2.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the BUA Cement leadership team which comprises of the members of the board of directors and other executive officers.

Segment information is required to be presented in respect of the Company's business and geographical segment, where applicable. The Company's primary format for segment reporting is based on operating segments. The operating segments are determined by management based on the Company's internal reporting structure. Where applicable, segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Notes to the Financial Statements (Cont.)

Management assessed that the Company has only one operating segment arising from the sale of cement. The Company's internal reporting structure is based on this operating segment.

2.20 Current and deferred income tax

The tax for the period comprises current, education and deferred taxes. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is recognised in other comprehensive income or directly in equity respectively.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited to other comprehensive income or equity, in which case the deferred tax is also dealt with in other comprehensive income or equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax liabilities on a net basis. Deferred tax assets and liabilities are presented as non-current in the statement of financial position.

2.21 Employee benefits

Pension scheme - Defined contribution scheme

In line with the Pension Reform Act 2004, the Company operates a defined contribution scheme; employees are entitled to join the scheme on confirmation of their employment. Contributions are made on a percentage of the employee's basic, transport and rent allowances by the employee and the Company. The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due.

Pension scheme - Defined benefit scheme

The estimates of the terminal benefit obligations are calculated periodically, with the assistance of independent actuaries, using the projected unit credit method. This method considers best estimate actuarial assumptions including the probable future length of the employees' service, the employees' final pay, the expected average life expectancy and probable turnover of beneficiaries. The obligations are discounted based upon appropriate discount rates.

The current period expense comprises the increase in the obligation, which results from the additional benefits earned by the employees in the period, and the interest expense, which results from the outstanding pension obligation. The current period expenses related to the defined benefit plan are recorded in cost of sales, selling

Notes to the Financial Statements (Cont.)

and distribution and administrative expenses based on the beneficiaries and the plan. Actuarial gains or losses are charged or credited to other comprehensive income in the period which they arise and it is accumulated in a separate reserve in equity.

Short-term benefits

Short term employee benefit obligations which include wages, salaries, bonuses and other allowances for current employees are measured on an undiscounted basis and recognised and expensed in the Company's statement of profit or loss as the employees render such services.

A liability is recognised for the amount expected to be paid under short-term benefits if the Company has a present legal or constructive obligation to pay the amount as a result of past service provided by the employee and the obligation can be estimated reliably.

2.22 Finance income

Finance income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

2.23 Finance cost

Finance cost comprises interest expense on borrowings. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

2.24 Earnings per share

Basic earnings per share is computed by dividing the profit or loss attributable to owners of the Company by the weighted average number of shares outstanding during the period. Diluted earnings per share is calculated by dividing the profit or loss attributable to the owners of the Company, by the weighted average number of shares outstanding after adjusting for the effects of all dilutive potential ordinary shares.

2.25 Share capital, reserves and dividends

i. Share capital

The Company has only one class of shares i.e. ordinary shares. Ordinary shares are classified as equity.

ii. Reserves

Reserves include all current and prior period retained earnings, share premium, reorganisation reserve and reserve on actuarial valuation of defined benefit plan.

iii. Dividend

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Company's shareholders. Interim dividends are deducted from equity when they are declared and no longer at the discretion of the company. Dividends for the year that are approved after the statement of financial position date are disclosed as an event after the statement of financial position.

2.26 Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

Notes to the Financial Statements (Cont.)

2.27 Lease - Accounting policy from 1 January 2019

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset; This may be specified explicitly or implicitly. If the supplier has a substantive substitution right, then the asset is not identified;
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:

- the Company has the right to operate the asset; or
- the Company designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts entered into, or changed, on or after 1 January 2019.

The Company primarily leases buildings (used as office space and warehouse). The lease terms are typically for fixed periods ranging from 1 year to 2 years but may have extension options as described below. On renewal of a lease, the terms may be renegotiated.

Contracts may contain both lease and non-lease components. The Company has elected not to separate lease and non-lease components and instead accounts for these as a single lease component. Lease terms are negotiated on an individual basis and contain different terms and conditions, including extension and termination options. The lease agreements do not impose any covenants, however, leased assets may not be used as security for borrowing purposes.

Until the 2018 financial year, leases of property were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

Lease in which the Company is a lessee

From 1 January 2019, leases are recognised as a right-of-use asset and a corresponding liability on the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the liability and finance cost. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Lease liabilities

At the commencement date of a lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Notes to the Financial Statements (Cont.)

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

Right of use assets

Right-of-use assets are initially measured at cost, comprising of the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date, less any lease incentives received
- any initial direct costs, and
- restoration costs.

The right-of-use asset and lease liability are presented separately from other non-lease assets and liabilities in the statement of financial position.

The impact of adopting the new lease standard is disclosed in note 4.2

2.28 Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the cost that they are intended to compensate.

2.29 Business combination under common control

Business combinations in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination (and where that control is not transitory), are referred to as common control transactions. The accounting policy for the acquiring entity is to account for the transaction at book values in its financial statements, as a result, no goodwill is recognised. Any difference between the acquirer's cost of investment and the acquiree's equity is presented separately in the re-organisation reserve in equity.

The Company has adopted the predecessor method of accounting for entities under common control. The book values of the acquired entity are the book values as reflected in the annual financial statements of the selling entity. Any non-controlling interest is measured as a proportionate share of the book values of the related assets and liabilities. Any expenses of the combination are written off immediately in the profit or loss.

Comparative amounts are restated as if the combination had taken place at the beginning of the earliest comparative period presented and adjustments are made to achieve uniform accounting policies - adopting the surviving/acquiring entity.

3. Financial Risk management

3.1 Financial risk factors

The Company's business activities expose it to a variety of financial risks: market risk (including foreign exchange, interest rate, and price), credit risk and liquidity risk. The objective of the Company's risk management programme is to minimise potential adverse impacts on the Company's financial performance.

Risk management is carried out in line with policies approved by the Board of Directors. The Board of Directors ("the Board"), provides principles for overall risk management, as well as set the overall risk appetite for the Company. Specific risk management approaches are defined for respective risks such

Notes to the Financial Statements (Cont.)

as foreign exchange risk, interest rate risk, credit risk, and investment of excess liquidity. The Company's overall risk management program seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is the responsibility of the Treasury Manager, who aims to effectively manage the financial risk of the Company according to the policies approved by the Board of Directors. The Treasury Manager identifies and monitors financial risk. The Board provides principles for overall risk management, as well as policies covering specific areas such as foreign exchange, interest rates and credit risks, use of financial instruments and investment of excess liquidity.

The Company's financial instruments consist of cash and cash equivalents, trade and other receivables (excluding prepayments), trade and other payables (excluding deferred income), due from/to related parties.

3.1.1 Market risk

i. Foreign exchange risk

The Company is exposed to foreign exchange risk from some of its commercial transaction. Management minimises the effect of the currency exposure by buying foreign currencies when rates are relatively low and using them to settle bills when due. The Company is predominately exposed to the US Dollar.

The table below shows the closing balance of US Dollar denominated financial instruments and the impact on the Company's loss and equity if the exchange rate between the US Dollar and the Nigerian Naira had increased or decreased by 10% with all other variables held constant.

Foreign currency denominated balances		
in N'000	31 December 2019	31 December 2018
Trade payables	11,028,315	92,064
Due to related parties	-	23,146,765
Due from related parties	(470,663)	-
Cash and cash equivalents	(801,836)	(41,273)
	9,755,816	23,197,556
Effect of 10% increase in USD	975,582	1,159,878
Effect of 10% decrease in USD	(975,582)	(1,159,878)

Notes to the Financial Statements (Cont.)

ii. Price risk

The Company is not exposed to price risk

iii. Interest rate risk

The Company's operations are partly financed by loans obtained from Nigerian banks. Interest payable on such loans are charged by the banks to the Company.

The Company's interest rate risk arises from borrowings from the banks. Interest on bank borrowings are at fixed and floating.

The Company's policy on managing interest rate risk is to negotiate favorable terms with the banks to reduce the impact of exposure to this risk and to obtain competitive rates for loans obtained and for deposits held with the banks.

The table below shows the impact on the Company's net assets if interest rates on variable interest rate loans increased or decreased by 5%, with all other variables held constant. Mainly as a result of higher or lower interest expense.

in N'000	31 December 2019	31 December 2018
Effect of 5% increase in interest rates	(272,947)	(171,959)
Effect of 5% decrease in interest rates	272,947	171,959

3.1.2 Credit risk

Credit risk is the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from cash and cash equivalents as well as credit exposures to customers, including outstanding receivables from related parties.

The Company uses policies to ensure that sale of products are to customers with appropriate credit history. The granting of credit is controlled by credit limits and the application of certain terms of sale. The Company carries out its business mostly on a cash and carry basis. Individual customers make cash deposits before delivery of goods and corporate customers make payment within 3 months after goods are delivered.

No credit limits were exceeded during the reporting period and none of the counterparties renegotiated their terms in the reporting year. Management's expected credit loss as a result of non-performance by these counterparties is disclosed in the 'impairment of financial assets' section below.

The maximum exposure to credit risk for cash and cash equivalents, trade and other receivables and due from related parties approximates the amount recognised on the statement of financial position. The Company does not hold any collateral as security.

To measure the expected credit losses, financial assets have been grouped based on shared credit risk characteristics and the days past due.

Notes to the Financial Statements (Cont.)

Impairment of financial assets

The Company's financial assets that are subject to IFRS 9's new expected credit loss model are as follows:

- Trade receivables
- Amount due from related parties and;
- Cash and cash equivalents.

While cash and cash equivalents are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial.

i. Trade Receivables

The Company applies the simplified approach in measuring the expected credit losses (ECL) which calculates a lifetime expected loss allowance (ECL) for all trade receivables. Trade receivables represent the amount receivable from customers for the sale of goods in the ordinary course of business. The expected credit loss for trade receivables is determined using a provision matrix approach.

The provision matrix approach is based on the historical credit loss experience observed based on the settlement pattern of customers over the expected life of the receivable and adjusted for forward-looking estimates of relevant macroeconomic variables. The macroeconomic variables considered include inflation and Gross Domestic Product (GDP) growth rate.

The expected loss rates as at 31 December 2019 are as follows:

Age of trade receivables						
in ₹'000	0 - 30 days	31 - 90 days	91 - 180 days	181 - 365 days	Over 365 days	Total
Gross carrying amount*	186,113	-	66,553	-	101,892	354,558
Default rate	0.03%	0.09%	0.12%	0.18%	100%	
Lifetime ECL	59	-	82	-	101,892	102,033
Net trade receivables	186,054	-	66,471	-	-	252,525

The expected loss rates as at 31 December 2018 are as follows:

Gross carrying amount*	83,628	-	-	-	105,742	189,370
Default rate (collective)	0.07%	1.56%	39.89%	100%	100%	
Default rate (customer specific)	0.00%	0.00%	0.00%	100%	100%	
Lifetime ECL	-	-	-	-	105,742	105,742
Net trade receivables	83,628	-	-	-	-	83,628

Notes to the Financial Statements (Cont.)

*The reconciliation of the gross carrying amount for trade receivables is as follows:

in ₹'000	31 December 2019	31 December 2018
Gross carrying amount as at 1 January	189,370	205,946
Additions during the year	7,000,504	1,770,138
Rebates offered to customers in the year	(1,080,298)	(20,481)
Receivables written off in the year	(26,920)	(3,023)
*Other adjustments to trade receivables	-	(88)
Receipts for the year	(5,728,098)	(1,763,122)
Gross carrying amount as at 31 December	354,558	189,370

ii. Amount due from related parties

Amounts due from related parties arises from expenses incurred on behalf of related parties. The general (3 stage) approach has been adopted for recognising expected credit loss on amounts due from related parties as they do not meet the criteria for applying the simplified approach.

The three-stage model requires monitoring of credit risk to determine when there has been a significant increase. The ECL has been calculated using the Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The three (3) stage model also incorporates forward-looking estimate. The ECL has been calculated using the Probability of default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). The three (3) stage model also incorporates forward-looking estimates.

in ₹'000	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total
At 31 December 2019				
Gross EAD*	18,016,340	-	-	18,016,340
Loss allowance as at 1 January 2019	(1,262,490)	-	-	(1,262,490)
Net EAD	16,753,850	-	-	16,753,850
At 31 December 2018				
Gross EAD*	67,382,139	-	-	67,382,139
Loss allowance as at 31 December 2018	(5,020,858)	-	-	(5,020,858)
Net EAD	62,361,281	-	-	62,361,281

Notes to the Financial Statements (Cont.)

*The reconciliation of the gross carrying amount for trade receivables is as follows:

in ₦'000	31 December 2019	31 December 2018
Gross carrying amount as at 1 January	67,382,139	37,680,785
Additions during the year	186,103,931	60,312,636
Unrealised exchange loss on related party balances	-	3,360,578
Receipts for the year	(235,469,729)	(33,971,860)
Gross carrying amount as at 31 December	18,016,340	67,382,139

The parameters used to determine impairment for receivables from related parties are shown below. For all receivables presented in the table, the respective 12-month Probability of Default (PD) equate the Lifetime PD.

Probability of Default (PD) The credit rating of each related party receivable is used to determine the PD. Related parties of the Company are unrated by external agencies. The assumed PD for the related parties was determined by stepping down Nigeria's (operating country) S&P's sovereign rating (B) by one (1) notch. All facilities have been assigned a B- rating with an associated year 1 PD of 0.72%.

Loss Given Default (LGD) The LGD was applied on unsecured exposures. LGD for related parties receivables was estimated to be 100%.

Exposure at Default (EAD) EAD is an estimation of the extent to which a financial entity may be exposed to a counterparty in the event of a default and at the time of the counterparty's default. The EAD for related parties receivables are due on demand and have no contractual repayment of interest and principal.

Forward Looking Information In incorporating forward-looking information, various macroeconomic variables such as GDP growth rate and Inflation rate, have been considered to determine how default rates should move over time.

Probability weightings The Z score was used to calculate the probability of having a best, downturn and optimistic scenarios by comparing Nigeria GDP historical experience from 2008 - 2019. 73% weight was assigned to best case, 14% for optimistic and 14% for downturn.

Notes to the Financial Statements (Cont.)

The Company considers both quantitative and qualitative indicators (staging criteria) in classifying its related party receivables into the relevant stages for impairment calculation.

Impairment of amount due from related parties are recognised in three stages based on certain quantitative and qualitative criteria such as:

- Day per due
- Credit rating at origination
- Current credit rating
- Significant adverse changes in business, financial and/or economic conditions in which the related party operates

Stage 1: This stage includes receivables at origination and receivables that do not have indications of a significant increase in credit risk.

Stage 2: This stage includes receivables that have been assessed to have a significant increase in credit risk using the above mentioned criteria, more than 30 days past due and other qualitative indicators such as the increase in political risk concerns or other macroeconomic factors and the risk of legal action, sanction or other regulatory penalties that may impair future financial performance.

Stage 3: This stage includes financial assets that have been assessed as being in default (e.g. receivables that are more than 90 days past due) and have a clear indication that the imposition of financial or legal penalties and/or sanctions will make the full recovery of indebtedness highly improbable.

iii. Cash and cash equivalents

The Company also assessed the cash and cash equivalents to determine their expected credit losses. Based on this assessment, they identified the expected losses on cash as at 31 December 2018 and 31 December 2019 to be insignificant, as the loss rate is deemed immaterial. Cash and cash equivalents are assessed to be in stage 1.

Sensitivity of estimates used in IFRS 9 ECL

In establishing sensitivity to ECL estimates for trade receivables and related parties receivables, three variables (GDP growth rate, exchange rate, and Inflation rate) were considered. Of these variables, the Company's receivables portfolio reflects greater responsiveness to GDP growth rate and inflation rates.

The table below shows information on the sensitivity of the carrying amounts of the Company's financial assets to the methods, assumptions and estimates used in calculating impairment losses on those financial assets at the end of the reporting period. Changes to these methods, assumptions and estimates may result in material adjustments to the carrying amounts of the Company's financial assets.

Estimation uncertainty in measuring impairment loss

- i. Trade receivables
 - a. Expected cash flow recoverable:

Notes to the Financial Statements (Cont.)

The table below demonstrates the sensitivity to a 10% change in the expected cash flows from trade receivables, with all other variables held constant:

in ₹'000	Effect on profit before tax	
	2019	2018
Increase/(decrease) in estimated cash flows		
-10%	127,191	19
+10%	(155,455)	(19)

b. Forward looking macro-economic variables:

This table shows the sensitivity of the expected credit loss to an inverse and positive change to each forward-looking macro variables, with all other variables held constant:

in ₹'000	GDP growth rate		
	-10%	Held constant	+10%
Effect on expected credit loss 2019			
+10%	(850)	4,774	10,397
Inflation Rate Held Constant	(5,624)	-	5,624
-10%	(10,397)	(4,774)	850
Effect on expected credit loss 2018			
+10%	-	-	-
Inflation Rate Held Constant	-	-	-
-10%	(14)	(14)	(14)

ii. Amounts due from related parties

The table below demonstrates the sensitivity to movements in the following inputs for amount due from related parties with all other variables held constant:

in ₹'000	Effect on profit before tax	
	2019	2018
Probability of default (PD)		
Increase/(decrease) in probability of default		
-10%	1,151,770	501,045
+10%	(1,405,360)	(501,045)
Loss given default (LGD)		
Increase/(decrease) in probability of default		
-10%	1,151,770	501,045
+10%	-	-

Notes to the Financial Statements (Cont.)

Forward looking macroeconomic indicators

in ₹'000		GDP growth rate		
		-10%	Held constant	+10%
Effect on expected credit loss 2019				
	+10%	(7,514)	31,366	70,157
Inflation Rate	Held Constant	(38,954)	-	38,863
	-10%	(70,452)	(31,425)	7,511
Effect on expected credit loss 2018				
	+10%	307,738	244,467	181,129
Inflation Rate	Held Constant	71,081	-	(63,596)
	-10%	(181,675)	(245,462)	(309,317)

3.1.3 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk is managed by maintaining sufficient cash reserves at all times so that the Company is able to meet its obligations as they fall due. The Company manages liquidity risk by effective working capital and cash flow management.

The Company invests its surplus cash in interest bearing accounts. At the reporting date the Company had N13.9 billion (2018: N1.5billion) in current accounts."

Maturity Analysis

The table below analyses the Company's financial liabilities into relevant maturity based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

in ₹'000	Less than 6 months	6 - 12 months	Total
At 31 December 2019			
Financial liabilities:			
Trade and other payables (Note 18)	19,843,875	-	19,843,875
Due to related parties (Note 25b)	918,741	-	918,741
Short-term borrowings (Note 20)	21,423,504	-	21,423,504
	42,186,120	-	42,186,120

Notes to the Financial Statements (Cont.)

in ₹'000	Less than 6 months	6 - 12 months	1 - 2 years	Total
At 31 December 2018				
Financial liabilities:				
Trade and other payables (Note 18)	23,998,522	-	-	23,998,522
Due to related parties (Note 25b)	-	124,074,794	-	124,074,794
Short-term borrowings (Note 20)	3,819,481	-	-	3,819,481
Long-term borrowings (Note 20)	-	-	118,287	118,287
	27,818,003	124,074,794	118,287	152,011,084

**Value added tax, withholding tax, prepayment and other statutory related items are excluded as they are non-financial instruments.

3.2 Fair value estimation

The carrying values of cash and cash equivalents, trade and other receivables, trade and other payables, amounts due to/from related parties and borrowings approximate their fair value.

3.3 Fair value hierarchy

All the Company's financial assets and liabilities are measured at amortised cost. The carrying amounts of all financial assets and liabilities at the reporting date approximate their fair value.

3.4 Financial instruments by category

in ₹'000	At 31 December 2019		At 31 December 2018	
	Financial assets at amortised cost	Financial liabilities at amortised cost	Financial assets at amortised cost	Financial liabilities at amortised cost
Financial assets				
Trade and other receivables	252,525	-	83,628	-
Due from related parties	16,753,850	-	62,361,281	-
Cash and cash equivalents	15,586,664	-	2,815,101	-
Financial liabilities				
Trade and other payables	-	19,843,875	-	23,998,522
Due to related parties	-	918,741	-	124,074,794
Short-term borrowings	-	21,423,504	-	3,717,431
Long-term borrowings	-	-	-	118,287
	32,593,040	42,186,120	65,260,010	151,919,034

**Value added tax, withholding tax, prepayment and other statutory related items are excluded as they are non-financial instruments.

Notes to the Financial Statements (Cont.)

3.5 Capital risk management

The objective of managing capital is to safeguard the Company's ability to continue as a going concern in order to maximise returns for shareholders and benefits for other stakeholders as well as maintaining the optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, capital returned to shareholders, new shares issued, or debt raised.

The Company monitors capital using the gearing ratio. This is determined as the proportion of net debt to equity. No formal debt/equity target has been established.

The gearing ratios at year end is as follows:

in ₹'000	Notes	31 December 2019	31 December 2018
Debt	i	21,423,504	3,937,768
Cash and cash equivalents		(15,586,664)	(2,815,101)
Net debt		5,836,840	1,122,667
Equity	ii	363,697,242	308,612,184
Gearing ratio		2%	0%

Loan covenants

Under the terms of the major borrowing facilities, the Company is required to comply with the following financial covenants:

- The Company shall not enter into a merger, demerger, or change in ownership structure without the written consent of the bank.
- The Company shall provide the bank with a copy of its audited statement of financial position and profit or loss accounts within 120 days of the end of the financial year.

The Company did not comply with either of these covenants and has thus classified all outstanding borrowings as current liabilities in the statement of financial position as at 31 December 2019.

4. Critical accounting estimates, judgments and impact of adoption of IFRS 16 'Leases'

4.1 Critical accounting policies and key sources of estimation uncertainty

The preparation of financial statements requires Directors to use judgment in applying its accounting policies and estimates and assumptions about the future. Estimates and other judgments are continuously evaluated and are based on Directors experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. Significant accounting judgment and estimate made in the preparation of the financial statements is shown below.

Notes to the Financial Statements (Cont.)

4.1.1. Useful life and residual value of property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets with definite life are depreciated over their useful life. The Company estimates the useful lives of property, plant and equipment and intangible assets based on the period over which the assets are expected to be available for use. The estimation of the useful lives of plant and machinery are based on technical evaluations carried out by those staff with knowledge of the machines and experience with similar assets. Estimates could change if expectations differ due to physical wear and tear and technical or commercial obsolescence.

It is possible however, that future results of operations could be materially affected by changes in the estimates brought about by changes in factors mentioned above. The amounts and timing of expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives or residual values of the plant and machinery would increase expenses and decrease the value of non-current assets.

4.1.2 Provision for decommissioning liabilities

The Board of Directors exercises significant judgement in estimating provision for restoration/decommissioning costs. Should these estimates vary, profit or loss and statement of financial position in the following years would be impacted. The estimation of the decommissioning costs is based on technical evaluations carried out by staff and experts with knowledge of the site and experience with similar assets. Estimated costs of restoring the sites to their previous condition are based on expected future value of current market prices based on inflation rates. This is discounted to a present value using the yield on long-term risk free bonds over the expected useful life of the sites.

Estimates could change due to changes in inflation rate, expected useful life of assets, yield on risk free bonds and market prices. The amount and timing of expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated costs could reduce the cost of the mines and reduce interest expense.

4.1.3 Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default, expected loss rates and maximum contractual period. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in note (3.1.2).

4.1.4 Determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Company is typically reasonably certain to extend (or not terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Company is typically reasonably certain to extend (or not terminate).
- Otherwise, the Company considers other factors, including historical lease durations and the costs and business disruption required to replace the leased asset.

Notes to the Financial Statements (Cont.)

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and is within the control of the lessee. During the financial year, there were no revised lease terms.

4.1.5. Deferred tax asset

The Company is subject to income taxes within Nigeria, which does not require much judgment in terms of provision for income taxes but a certain level of judgment is required for recognition of the deferred tax assets. Management is required to assess the ability of the Company to generate future taxable economic earnings that will utilize the deferred tax assets. Assumptions over the generation of future taxable profits depends on management's estimates of future cash flows. This estimate of future taxable income is based on forecast cash flows from operations.

4.1.6 Defined benefit plan

The present value of the Company's defined benefit plan and the related current service cost and past service cost are measured using the Projected Unit Credit (PUC) Method. This method considers best estimate actuarial assumptions including the probable future length of the employees' service, the employees' final pay, the expected average life expectancy and probable turnover of beneficiaries. Details of assumptions made in arriving at the defined benefit obligation are disclosed in note 11b.

4.2 Impact of adoption of IFRS 16 'Leases' on the financial statements

The Company has adopted IFRS 16 retrospectively from 1 January 2019 but has not restated comparatives for the 2018 reporting period, as permitted under the specific transition provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening balance of equity on 1 January 2019. The new accounting policies are disclosed in note 2.1.2.1

a. Practical expedients applied

In applying IFRS 16 for the first time, the Company has used the following practical expedients permitted by the standard:

- using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.
- relying on previous assessments on whether leases are onerous as an alternative to performing an impairment review. There was no onerous contracts as at 1 January 2019.
- accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2019 as short term leases.
- applying a single discount rate to a portfolio of leases with reasonably similar characteristics.

The Company also elected not to reassess whether a contract is or contains a lease at the date of initial application. Instead, for contracts entered before the transition date, the Company relied on its assessment made applying IAS 17 and IFRIC 4: Determining whether an arrangement contains a lease.

b. Impact on the financial statements

- The following table summarises the impact of the transition to IFRS 16 on the statement of financial position as at 1 January 2019 for each affected individual line item. Line items that were not affected by the changes have not been included.

Notes to the Financial Statements (Cont.)

in N'000	
Operating lease commitments disclosed as at 31 December 2018	-
Add adjustments as a result of a different treatment of extension and termination options	6,298
Lease liabilities recognised as at 1 January 2019	6,298

*The Company had no operating lease commitment as at 31 December 2018 because the lease contract existing as at 1 January 2019 was prepaid for.

in N'000	31 December 2019	1 January 2019
Current lease liabilities	41,677	3,954
Non-current lease liabilities	6,675	2,344
	48,352	6,298

ii. Amounts recognised in the statement of profit or loss

in N'000	31 December 2019
Depreciation charge on right of use assets - Buildings	37,771
Interest expense (included in finance cost)	5,827

iii. Lease liabilities

	N'000
Opening balance as at 1 January 2019	6,298
Additions	41,621
Interest expense (Note ii)	5,827
Payments made during the year	(5,394)
Closing balance as at 31 December 2019	48,352

The associated right-of-use assets for property leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid lease payments relating to that lease recognised in the statement of financial position as at 31 December 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

in N'000	31 December 2019	1 January 2019
Buildings	76,503	8,378
Total Right-of-use assets	76,503	8,378

The following table summarises the impact of the transition to IFRS 16 on the statement of financial position as at 1 January 2019 for each affected individual line item. Line items that were not affected by the changes have not been included. The adoption of IFRS 16 had a nil impact on opening equity as at 1 January 2019.

Notes to the Financial Statements (Cont.)

in N'000	As at 31 December 2018	Impact of IFRS 16		As at 1 January 2019
		Re - classification	Re - measurement	
Assets				
Right-of-use assets	-	2,080	6,298	8,378
Prepayment	353,136	(2,080)	-	351,056

Liabilities				
Non-current				
Lease liabilities	-	-	2,344	2,344
Current				
Lease liabilities	-	-	3,954	3,954

Maturity analysis of contractual cashflows	0 - 3 months	3 - 12 months	1 - 2 years	Above 2 years
31 December 2019				
Lease liabilities	15,000	26,879	10,130	1,100

5. Revenue from contracts with customers

The Company derives revenue from the transfer of goods at a point in time in the following major product categories:

in N'000	31 December 2019	31 December 2018
Sale of bagged cement	174,868,984	117,501,294
Sale of bulk cement	649,342	1,511,278
	175,518,326	119,012,572

The Company's transactions in 2019 with two major customers which contributed more than 10% each of the total revenue from the sale of cement is ₦46.6 billion (2018: Nil).

a. Disaggregation of revenue from contracts with customers
Revenue from contracts with customers is disaggregated by primary geographical market and timing of revenue recognition.

Notes to the Financial Statements (Cont.)

in ₦'000	31 December 2019	31 December 2018
i. Primary geographical markets		
Nigeria	170,459,609	116,160,670
Outside Nigeria	5,058,717	2,851,902
	175,518,326	119,012,572

ii. Timing of revenue recognition

The company derives revenue from the transfer of goods and services at a point in time.

b. Liabilities relating to contracts with customers

The Company has recognised the following liabilities relating to contracts with customers:

in ₦'000	31 December 2019	31 December 2018
Contract liabilities	32,868,945	7,936,831

The following shows the movement in contract liabilities during the year

in ₦'000	2019	2018
Balance as at 1 January	7,936,831	2,485,436
Payments received in advance of satisfaction of performance obligation/discount offered	196,045,074	123,988,058
Revenue recognised for goods previously paid for	(171,112,960)	(118,536,663)
	32,868,945	7,936,831

6. Impairment (write back)/charge on financial assets

in ₦'000	2019	2018
Impairment charge on trade and other receivables (Note 17ii)	141	174,401
Impairment (write back)/charge on due from related parties (Note 25d)	(3,758,368)	2,286,758
	(3,758,227)	2,461,159

Notes to the Financial Statements (Cont.)

7.1 Expenses by nature

in ₦'000	31 December 2019	31 December 2018

Other finance costs

Interest on funding from related party**	2,326,458	2,902,611
Unwinding of provision for decommissioning liabilities (Note 19)*	280,572	427,133
	6,044,940	4,154,079
Amount capitalised***	(695,884)	(403,836)
Finance costs expensed	5,349,056	3,750,243
Net finance cost	5,192,054	3,675,183

*The unwinding of provision for liabilities is due to passage of time in recognition of the present value of the future obligation relating to restoration of quarries being mined by the Company as at year end. Amount is non-cash and has been adjusted for in cash generated from operating activities in the statement of cash flows.

**This relates to interest incurred on funding provided by related parties for construction of the production line. This accrued interest amount is after the construction phase of the production line. Interest expense incurred during the construction phase has been capitalised as part of property, plant and equipment in line with IAS 23 (Borrowing cost).

***Capitalised borrowing costs

The capitalisation rate used to determine the amount of borrowing costs to be capitalised is the effective interest rate (EIR) applicable to the Company's specific and general borrowings that are directly attributable to the acquisition, construction or production of a qualifying asset. The determined rate is 19% (2018: 21%).

Notes to the Financial Statements (Cont.)

11. Employee benefit obligations

a. Defined contribution plan

The company operates a defined contribution pension scheme in line with the provisions of the Pension Reform Act, 2004, with contributions based on the employees' emoluments in the ratio 8% by the employee and 11.5% by the employer.

The Company's contributions to this scheme is charged to the profit or loss account in the period to which they relate. Contributions to the scheme are managed by Stanbic IBTC pension manager, and other appointed pension managers on behalf of the beneficiary staff in line with the provisions of the Pension Reform Act.

Consequently, the Company has no legal or constructive obligations to pay further contributions if the funds do not hold sufficient assets to meet the related obligations to employees.

As at 31 December 2019, the unpaid contribution is ₦18.4 million (2018: ₦60.2 million).

b. Defined benefit plan

The Company has a retirement benefits policy for certain of its full-time employees who have served the Company for a minimum of 2 years and 5 years for some top management staff and other staff categories respectively. All of the plans are final salary pension plans, which provide benefits to members in the form of a guaranteed level of pension payable for life. The level of benefits provided depends on members' length of service and their salary in the final years leading up to retirement. Employees' mandatory retirement age is 60 years (2018: 55 years).

The valuations of the present value of the defined benefit plan were carried out at 31 December 2019 by Ernst & Young. The present value of the plan and the related current service cost and past service cost were measured using the Projected Unit Credit (PUC) Method.

In calculating the liabilities, the method:

- i. Recognises the service rendered to the Company by each member of staff at the reporting date.
- ii. Anticipates that salaries will increase between the review date and the eventual exit date of the employee via withdrawal, death or retirement and then;
- iii. Discounts the expected benefit payment to the reporting date.

i) Valuation assumptions

The valuation assumptions fall under two broad categories:

- Financial assumptions
- Demographic assumptions

Risk exposure

Through its defined benefit pension plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Changes in bond yield

A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

Notes to the Financial Statements (Cont.)

Inflation risk

The Company's pension obligations is linked to salary inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation).

Life expectancy

The majority of the plans' obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant in the plan, where inflationary increases result in higher sensitivity to changes in life expectancy.

%	31 December 2019	31 December 2018
Long term average discount rate per annum	13.5	15.5
Average rate(s) of salary increase per annum	12	12
Average inflation rate per annum	11	12

Discount rate

In order to measure the liability, the projected benefit must be discounted to a net present value as at the current statement of financial position date, using an interest assumption (called the discount rate).

IFRS through IAS 19 requires that the discount rate be determined on the Company's statement of financial position date by reference to market yields on high quality corporate bonds (except where there is no deep market in such bonds, in which case the discount rate should be based on market yields on Government bonds).

The discount rate should reflect the duration of the liabilities of the benefit programme.

The weighted average liability duration for the plan is 5.45 years. The average weighted duration of the closest Nigerian government bond as at 31 December 2019 was 5.96 years with a gross redemption yield of 15.29%.

The Company has adopted 13.5% (2018: 15.5%) per annum as the discount rate for the current year valuation.

ii. Demographic assumptions

Mortality in service

The rates of mortality assumed for employees are the rates published in the A67/70 Ultimate Tables, published jointly by the Institute and Faculty of Actuaries in the UK.

Notes to the Financial Statements (Cont.)

Sample age	Number of deaths in year of age out of 10,000 lives	
	31 December 2019	31 December 2018
25	7	7
30	7	7
35	9	9
40	14	14
45	26	26

Withdrawal from service

Age band	2019 rate	2018 rate
Less than or equal to 30	3.0%	3.0%
31 – 35	3.0%	3.0%
36 – 40	3.0%	3.0%
41 – 45	2.0%	2.0%
46 – 55	5.0%	5.0%

ii. The amount included in the statement of financial position as a result of the entity's obligation in respect of its defined benefit plans is as follows:

in ₦'000	31 December 2019	31 December 2018
Present value of the defined benefit plan	2,908,526	2,201,781

Reconciliation of change in the present value of the defined benefit plan are as follows:

in ₦'000	31 December 2019	31 December 2018
Balance at beginning of the year	2,201,781	2,211,478
Current service cost	152,276	154,576
Interest cost	305,426	287,757
Plan amendment	(66,747)	-
Actuarial losses/(gains) - Change in assumption	334,177	(123,496)
Actuarial losses/(gains) - Experience adjustment	48,434	(66,844)
Benefit paid during the year	(66,821)	(261,690)
Balance at end of the year	2,908,526	2,201,781

Plan amendment is as a result of a change in the mandatory retirement age from 55 years to 60 years in the financial year ended 31 December 2019. This led to a reduction in past service cost of ₦66.75 million.

Notes to the Financial Statements (Cont.)

Amounts recognised in the statement of profit or loss in respect of these defined benefit plans are as follows:

in ₹'000	31 December 2019	31 December 2018
Current service cost (Employee cost)	152,276	154,576
Interest on obligation (Finance cost)	305,426	287,757
Defined benefit plan amendment (Employee cost)	(66,747)	-
	390,955	442,333

Amounts recognised in other comprehensive income (OCI) are as follows:

Actuarial loss/(gain) on defined benefit plan:		
- Change in assumption	334,177	(123,496)
- Change in experience adjustment	48,434	(66,844)
	382,611	(190,340)
Deferred tax credit	(114,783)	(4,586)
Amount recognised in OCI (net of tax)	267,828	(194,926)

Net liability recognized in the statement of financial position

Balance at 1 January	2,201,781	2,211,478
Net periodic benefit cost recognised in profit or loss	390,955	442,333
Benefit paid during the year	(66,821)	(261,690)
Amount recognised in other comprehensive income	382,611	(190,340)
Balance at 31 December	2,908,526	2,201,781

(iii) Sensitivity analysis on accrued liability

in ₹'000	Sensitivity base	Parameters	Accrued liabilities	
			31 December 2019	31 December 2018
	Discount rate	+1%	2,732,914	2,128,111
		-1%	3,103,851	2,282,228
	Salary increase	+1%	3,118,593	2,293,438
		-1%	2,716,953	2,116,578
	Mortality experience	Age rated up by 1 year	2,908,744	2,202,002
		Age rated down by 1 year	2,908,327	2,201,583

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

Notes to the Financial Statements (Cont.)

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The weighted average duration of the defined benefit obligation is 7.61 years (2018 – 5.45 years). The expected maturity analysis of the defined benefit obligation is as follows:

Year	in ₹'000
2020	170,000
2021	193,370
2022	222,893
2023	580,094
2024	877,240
2025 - 2029	4,081,461

Notes to the Financial Statements (Cont.)

- a. All borrowings except the Bank of Industry loan, are secured by a debenture on all the fixed and floating assets of the Company. Refer to Note 20 for further details.
- b. Reclassifications represent intangible assets and intercompany balances now reclassified to their respective accounts.
- c. Transfers relate to the accumulated construction cost of the Company's production plant which is now transferred to the respective asset classes on completion of the plant and subsequently depreciated.
- d. Included in quarry equipment is cost relating to restoration of quarry sites being mined by the Company as at 31 December 2019. Cost as at 1 January 2019 was ₦2.5 billion and an addition of ₦420.9 million (2018: a reduction of ₦421 million). was recognised in the current year due to changes in estimates. Current year depreciation charge recognised on the restoration cost is ₦435.9 million (2018: ₦26.6 million) using the units of production method.

The depreciation charged for the year is apportioned as follows:

in ₦'000	31 December 2019	31 December 2018
Cost of Sales	11,495,079	5,785,534
Administrative Expenses	2,447,268	767,906
	13,942,347	6,553,440

- e. Purchase of property, plant and equipment in statement of cash flows is calculated as follows:

in ₦'000	31 December 2019	31 December 2018
Additions in the year	23,489,618	225,402,471
Adjustment for non-cash items:		
- transfer of assets from merger of Kalambaina business	-	(204,075,000)
- capitalised borrowing cost	(695,884)	(403,836)
	22,793,734	20,923,635

- f. Proceeds from disposal of PPE in statement of cash flows is analysed below:

in ₦'000	31 December 2019	31 December 2018
Sales proceeds from disposal of PPE:		
- Cash received in the year	259	21,955
- Unpaid at year end	139	-
	398	21,955
Net book value of disposed asset	(145)	(13,485)
Profit from disposal of property, plant and equipment	253	8,470

Notes to the Financial Statements (Cont.)

13. Leases

This note provides information for leases where the Company is a lessee.

- a. Amounts recognised in the statement of financial position
The balance sheet shows the following amounts relating to leases:

in ₦'000	31 December 2019	31 December 2018
Right-of-use assets		
Opening balance as at 1 January 2019	8,378	8,378
Additions	105,896	105,896
Depreciation	(37,771)	(37,771)
Closing balance as at 31 December 2019	76,503	76,503
Lease liabilities		
Opening balance as at 1 January 2019	6,298	6,298
Additions	41,621	41,621
Interest expense	5,827	5,827
Payments	(5,394)	(5,394)
Closing balance as at 31 December 2019	48,352	48,352
Current	41,677	41,677
Non-current	6,675	6,675
	48,352	48,352

- b. The statement of profit or loss shows the following amounts relating to leases:

Depreciation charge of right-of-use assets		
Opening balance as at 1 January 2019	-	-
Charge for the year	37,771	37,771

	19,843,875	23,998,522
Non-financial liabilities:		
Other payables and accrued expenses	2,108,886	1,376,602
Statutory obligations	14,389,097	8,911,802
	16,497,983	10,288,404
	36,341,858	34,286,926

19. Provision for decommissioning liabilities

BUA Cement Plc is involved in the mining of two active limestone quarries, one clay quarry and four proposed quarries. The quarry licenses are for 5 years at a time and can be renewed for a nominal fee on expiration. The Company has a constructive obligation to restore the mined sites to their previous conditions and has made provision for the estimate cost of site restoration. The decommissioning provision is estimated based on the assumption that decommissioning will take place between 60 months and 132 months as at 31 December 2019.

There were four active quarries as at 31 December 2019 namely: Ikpobia, Edelstein and Gamla limestone quarries and Camp clay quarry, with estimated useful lives ranging from 6 years to 11 years. Hence, in the event of renewal of the licenses after the first expiration, some of these quarries would not have reached the end of their useful lives before the license can be renewed for a second time. Where there is a possibility that these licenses would not be renewed, then, the estimated useful lives would be adjusted to reflect the new assumption.

The provision for decommissioning cost has been estimated using existing technology at current prices adjusted for inflation and discounted using a historical risk-adjusted discount rate for the four active quarry sites as at 31 December 2019. Actual costs may however differ from the estimates based on the prevailing assumptions at the relevant periods.

The table below shows the movement in the decommissioning liabilities for the year ended 31 December 2019.

Notes to the Financial Statements (Cont.)

in N'000	31 December 2019	31 December 2018
Balance at 1 January	3,346,240	3,330,517
Increase/(decrease) in decommissioning liability as a result of changes in estimates	420,901	(421,011)
Additional discount due to passage of time	280,572	436,734
At 31 December	4,047,713	3,346,240

20. Borrowings

	31 December 2019	31 December 2018
Current		
Bank loans	20,861,438	3,717,431
Bank overdraft	562,066	102,050
	21,423,504	3,819,481
Non-current		
Bank of industry - Term loan	-	118,287
Total borrowings	21,423,504	3,937,768

a. The analysis of borrowings during the year is as shown below:

	31 December 2019	31 December 2018
At 1 January	3,937,768	770,489
Additional drawdowns in the year	56,737,008	5,626,424
Principal repayments	(39,905,311)	(2,473,574)
Interest expense (Note 9)	3,132,484	403,836
Interest repayments	(2,478,445)	(389,407)
At 31 December	21,423,504	3,937,768

Total borrowings include secured liabilities (bank borrowings) obtained on 11 June 2019 for the construction of the Company's production plant.

Bank loans are secured by an all asset debenture over the fixed and floating assets of the Company.

The Company's term loan and short-term loan facilities are at a floating interest rate of 19% each. The loans have a one-year and a 6-month tenor respectively. The other facilities are at fixed interest rates.

Notes to the Financial Statements (Cont.)

The above borrowings are further classified based on average interest rate, maturity and provider of funds:

	Average Interest Rate	Maturity	2019 N'000	2018 N'000
Bank of Industry - Term loan (Note 20b)	10%	31 March 2020	167,534	425,386
Ecobank - Term loan	19%	30 May 2019	-	3,410,332
Union Bank Nigeria Plc	19%	On demand	-	102,050
First bank - Bank overdraft	18.5%	-	562,066	-
First bank - Short term loan	19%	11 December 2019	2,113,549	-
First bank - Trade loan	19%	31 December 2019	11,013,842	-
First bank - Term loan	19%	30 December 2019	7,556,513	-
			21,423,504	3,937,768

b. Bank of Industry (BOI) - term loan

The facility was obtained to finance generating set for the plant and Komatsu dump trucks. The loan is guaranteed by Polaris Bank Limited. The loan was obtained at 10% interest rate. Given the concessionary terms at which the Company secured the loan, it is considered to have an element of government grant. The prevailing market interest rates for an equivalent loan is 16%. The fair value of the loan is estimated at ₦1.2 billion. The difference of ₦179.8 million between the gross proceeds of the loan and the fair value of the loan is the benefit derived from the below market rate obtained. The difference is recognised as deferred income and amortised over the period of the loan to other income.

21. Deferred income

in N'000	31 December 2019	31 December 2018
a. Deferred income arising from government grant		
Current	5,701	26,287
Non-current	-	5,701
	5,701	31,988

b. Movement in deferred income is analysed below:

	31 December 2019	31 December 2018
Balance as at 1 January	31,988	74,198
Amount unwound to profit or loss (Note 8)	(26,287)	(42,210)
Balance as at 31 December	5,701	31,988

Notes to the Financial Statements (Cont.)

22. Share capital

in ₦'000	31 December 2019	31 December 2018
a. Authorised:		
Balance as at 1 January:	40,000,000	-
- ordinary shares @ ₦1 per share	-	20,000

c. Authorised:		
40 billion ordinary shares @ 50k per share	20,000,000	20,000,000
d. Issued and fully paid		
Balance as at 1 January:	16,932,177	-
- ordinary shares @ ₦1 per share	-	20,000
- additions on restructuring of existing shares from ₦1 to 50k per share	-	-
- additional shares issued on merger with CCNN @ 50k per share	-	16,912,177
Restated balance as at 1 January - ordinary shares @ 50k per share	16,932,177	16,932,177
Additions in the year	-	-
Balance as at 31 December	16,932,177	16,932,177

Notes to the Financial Statements (Cont.)

*In accounting for the merger between BUA Cement Plc and Cement Company of Northern Nigeria Plc ("CCNN") in the year, the balances in these financial statements, including share capital, were presented as though the merger took effect from when both entities came under common control. As a result, the changes in share capital of BUA Cement Plc with respect to the business combination, were applied retrospectively. However actual changes to the authorised and the issued share capitals occurred during the year ended 31 December 2019.

23. Earnings per share

a. Basic earnings per share (EPS) is calculated by dividing the profit attributable to equity holders of the parent of Company by the weighted average number of ordinary shares outstanding at the end of the reporting period.

in ₦'000	31 December 2019	31 December 2018
Profit attributable to ordinary equity holders of the parentc	60,563,155	64,072,002
Weighted average number of ordinary shares in issue	33,824,354	33,824,354
Basic earnings per share (Naira)	1.79	1.89

*Diluted earnings per share is the same as the basic earnings per share as there are no potential securities convertible to ordinary shares.

**EPS for 2018 has been adjusted to reflect the merger with Cement Company of Northern Nigeria ("CCNN Plc"). In line with the Company's policy, although the merger took place effective 23 December 2019, the transaction has been reflected as though it had occurred as at 1 January 2018. Accordingly, share capital used for EPS calculation in each period presented has been adjusted as though the shares issued as consideration for CCNN Plc had been outstanding as at 1 January 2018. Earnings used for 2019 and 2018 EPS calculations include the full year results of CCNN Plc.

b. The actual basic and diluted earnings per share (EPS) per the individual entity's stand-alone audited financial statements for the year ended 31 December 2018 is as follows:

in ₦'000	31 December 2018
BUA Cement Plc	2,929
Cement Company of Northern Nigeria Plc	0.44

24. Particular of directors and staff

a. Particulars of staff

The average number of persons, excluding Directors, employed by the Company during the year was as follows

in ₦'000	31 December 2019	31 December 2018
Management	42	35
Production	688	547
Administration	332	329
	1,062	911

Notes to the Financial Statements (Cont.)

b. The table below shows the number of employees (excluding Directors) of the Company in receipt of emoluments, including allowances and pension costs within the following bands during the year.

	31 December 2019	31 December 2018
₦100,000 - ₦500,000	-	35
₦500,001 - ₦1,000,000	378	136
₦1,000,001 - ₦2,000,000	245	260
₦2,000,001 - ₦3,000,000	207	228
₦3,000,001 - ₦4,000,000	113	95
₦4,000,001 - ₦5,000,000	38	68
₦5,000,001 - ₦10,000,000	68	77
₦10,000,001 - ₦15,000,000	6	7

₦15,000,001 - ₦45,000,000	-	1
₦45,000,001 - ₦50,000,000	-	1
₦50,000,001 - ₦70,000,000	1	-
	7	10

Notes to the Financial Statements (Cont.)

25. Related party transactions and balances

The ultimate majority shareholder of the Company, Alhaji Abdul Samad Rabiu CON CON, is the ultimate controlling party. The ultimate controlling party has controlling interests in other companies. These companies are considered to be related parties to BUA Cement Plc.

The Company's transactions and balances arising from dealings with related parties during the year are shown below:

- a. Transactions with related parties
 - i. Key management personnel compensation

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any Director (whether executive or otherwise) of the Company. BUA Cement Plc has identified its management team as its key management personnel. The compensation paid or payable to key management for employee services is shown below:

in ₦'000	31 December 2019	31 December 2018
Salaries and other short-term employee benefits	390,396	271,302
Pension costs	17,528	14,194
	407,924	285,496

- ii. Management and technical service fees

Fees are chargeable on technical support, management and administrative services provided by BUA International Limited and Damnaz Cement Company Limited to BUA Cement Plc. The technical fees are chargeable at 2.83% of the Company's annual net sales in line with the Management Service Agreement between BUA Cement Plc and each of these related entities.

During the financial year ended 31 December 2019, only Damnaz Cement Company Limited provided technical and management services to the Company with a fee charge of ₦1.9 billion (2018: ₦3.5 billion).

- iii. Transfer/(receipt) of funds

The treasury function of related entities of the Company are managed centrally. As such there is frequent movement of funds from entities with funds at any particular point in time for the settlement of obligations owed by another related party. The net movement of funds between these related entities and the Company is shown below:

Effect of non-cash interest on funding from related party (Note 9)	(2,326,458)	(2,902,611)
	(125,665,738)	(5,367,592)

Notes to the Financial Statements (Cont.)

26. Contingent liabilities

The Company is subject to some pending litigations arising in the normal course of business as at 31 December 2019. There are no contingent liabilities in respect of these pending litigations as at 31 December 2019 (2018: Nil).

27. Capital commitments and guarantees

a. Capital commitment

Significant capital expenditure contracted for at the end of the reporting period but not recognised as liabilities is as follows:

in N'000	31 December 2019	31 December 2018
Property, plant and equipment	50,400	11,732,397

The above commitments include capital expenditure commitments of ₦50.4 million (2018: ₦11.7 billion) relating to the re-roofing of the Clinker Dome in the OBU II Cement plant located at Okpella in Edo State, Nigeria.

b. Guarantees

BUA Cement Plc has guaranteed the payment of a sum of ₦4.4 billion to the Nigerian Gas Company Limited ("NGC") on behalf of BUA International Limited, being the estimated value of a three-month supply of natural gas, should BUA International Limited defaults in her obligations under the Natural Gas Sale and Purchase Agreement between NGC and BUA International Limited. BUA Cement Plc has agreed to take delivery of the natural gas from BUA International Limited for its operational use.

In August 2019, BUA Cement Plc in turn entered into an agreement with Keystone Bank Limited for the latter to stand as the primary obligor on behalf of BUA Cement Plc in this transaction. In the event of a default by BUA International Limited, Keystone Bank Limited would pay Nigerian Gas Company Limited an amount of up to the guaranteed sum. The bank guarantee is a continuing guarantee and shall remain in full force and effect and for its full amount.

28. Subsequent events

a. Impact of COVID-19

In the first quarter of 2020, there was a COVID -19 outbreak which has spread globally. The outbreak has been declared a Public Health Emergency of International concern by World Health Organisation (WHO) in March 2020. As at the date of this report, several cases have been confirmed in Nigeria by the Nigerian Centre for Disease Control.

The disease has caused a significant reduction in social interaction, with a shutdown of public facilities and physical interaction. Measures taken to contain the virus have affected economic activity. There has been significant disruption in business operations across the country with restriction of movement in certain states and closure of inter-state borders which invariably impacted cement dispatch to the affected areas. Production however continued uninterrupted with provision of additional protective materials to staff who must be at the factories to shield them from getting infected otherwise they work from home. Demand for cement remains strong and cement dispatches to other areas that are still accessible is fully ongoing.

Notes to the Financial Statements (Cont.)

In the light of these recent developments and its underlying impact, the Company, despite continuing operations is not completely insulated from the impact of COVID-19 as sales dropped in the month of March 2020 by less than 5% when compared to the achievement of previous month. The extent of further drop depends on the curtailment of the virus spread, future actions of the government and the state of the economy, hence cannot be reasonably estimated as at now. Cost of production in 2020 will invariably increase with convergence of multiple exchange rates into a single exchange rate regime which saw the official exchange rate increase from ₦306 to ₦360, although the likelihood of passing the increase to consumers is quite high when things normalize, except if the economy enters into a recession.

Management has also considered the potential implications of this outbreak and have put in place measures to mitigate against a significant impairment of the carrying value of assets. As of the date of this report, there are no plans to liquidate any of the Company's operations or to cease trading. However, its reasonably possible, based on existing knowledge, that outcomes within the next financial year that are different from assumptions used for some estimates and judgement, could require a material adjustment to the carrying amount of the asset or liability affected.

- b. BUA Cement Plc's shares were listed on the Nigerian Stock Exchange on 9 January 2020 following the Company's merger with Cement Company of Northern Nigeria Plc in a scheme of merger on 23 December 2019.

29. Comparatives

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

30. Business combination under common control

On 31 December 2019, the assets, liabilities and business operations of Cement Company of Northern Nigeria Plc ("CCNN Plc") were merged with those of BUA Cement Plc ("the Company") through a Scheme of Arrangement between the shareholders of the two entities. The merger is categorised as business combination under common control as both merged entities are ultimately controlled by the same party, hence this transaction falls outside the scope of IFRS 3 'Business Combination'. The predecessor value method of accounting for the merger has therefore adopted by the Directors in accounting for this merger in the books of the Company.

Under the predecessor value method, goodwill is not recognised, instead, the book values of the net assets transferred are combined with those of the surviving entity. A total 13,143,500,970 ordinary shares of 50k each in BUA Cement Plc were issued as purchase consideration to the shareholders of CCNN Plc in exchange for the net assets and business operations of the latter acquired. The cost of these issued shares is recognised as a re-organisation reserve in equity. Also, excess of purchase consideration paid by CCNN Plc to shareholders of Kalambaina arising from the accounting of the merger between Kalambaina Cement Company Limited and CCNN Plc in 2018, has been adjusted against re-organisation reserve in equity to apply the predecessor accounting method consistent with BUA Cement Plc's accounting policy.

As at 31 December 2019, the Company incurred a total sum of ₦1.3 billion on acquisition related costs, consisting mainly of filing fees and professional services fees. These amounts have been reflected in the respective expense accounts in the statement of profit or loss and other comprehensive income.

The full retrospective predecessor value method has been adopted. As a result the following financial position of CCNN Plc as at 1 January 2018 and 31 December 2018 were merged with those of BUA Cement Plc as though the merger took effective from when both entities came under common control.
